# **Text Formatting Tips**

## **Centre Point Anchor**

• In a Default Text Box in Objects and Animation the "Box" will expand vertically and horizontally according to the amount of text which is input

• Note that the Text Box in the above example is "Anchored" around the Centre Point of the Box and therefore expands both Vertically and Horizontally about the Centre

### **Centre Top Anchor**

• Moving the "Centre Point" to the top of the Text Box changes the way in which the text expands

• Note that while the Text Box still expands Horizontally it only expands Vertically in the Downward direction

#### **Top Left Corner Anchor**

• Moving the "Centre Point" to the top left corner of the Text Box and the Alignment to "Left"

- Note that the Text Box expands Downwards and to the Right of the Anchor Point
- The Alignment is set to LEFT
