- Browse a list of Slide Names and choose the required Slide
- Note that multiple Blank Slides and no Main Images appear as a single BLANK Slide.
- Designate a MAIN IMAGE for each Blank Slide

Properties of the Button Text

The Font, Font Size and other attributes (Bold, Italic and Underline) are chosen in the usual way.

The Text in a Button can be assignd a different color for each of the three different states in a published show - Standing, Hover and Clicked.

The illustration shows a Button in Objects and Animation and how it would look in a published show in its three possible states - Standing, Hovered on with the mouse and Clicked on with the mouse.

The colors which can be chosen for the thee different states are shown in the Properties Tab - after an Action on Mouse Click has been assigned in the Common Tab.

Action on Mouse Click Options

Run Slideshow

The chosen Slide Show must be created in the same version as the Slide Show containing the Link. The Slide Show runs and exits to the Desktop.

Run Slideshow with Return

The chosen Slide Show must be created in the same version as the Slide Show containing the Link. The Slide Show runs and returns to the Slide Show containing the link.

Run Application or Open File

The chosen Slide Show can be created in any version of Pictures to Exe. The Slide Show runs and returns to the Slide Show containing the link.

If a file is chosen as the target, then the file is opened in the default Program for the file type. When the Program is closed you are returned to the Slide Show containing the link.

Run Application and Exit

The chosen Slide Show can be created in any version of Pictures to Exe. The Slide Show runs and exits to the Desktop.

Print Picture/Slide

Allows the viewer to Print the whole slide or the Main Image

Help

Displays an "Information" box.

- Click on OK to return to the show
- Configure the Information Box in Project Options / Advanced Tab / Windows (Help, Startup, Custom)
- Click on Edit Help Window
- Edit the Text

Open Web Page

Opens a Browser Window with the target Web Page. Close Browser to return to the Slide Show.

Write E-Mail

Allows viewer to send e-mail to designated e-mail address.

Next Slide

Next Slide

Previous Slide

Previous Slide

Go To First Slide

Slide One

Go to Slide With Name

Go to a predetermined slide. Only works if the slide has a designated Main Image. Multiple Blank Slides cannot be differentiated.

Pause

Pause the Slide Show

Exit

Exit the Slide Show

Show Window

- Similar to "HELP"
- Displays an "Information" box.
- From the Main Screen
- Configure the Window in Project Options / Advanced Tab / Windows (Help, Startup, Custom) / Customize...
- Click on Custom Windows / Add Window (Window1,2,3 etc)
- Click on Edit Window
- In the Windows Editor, add a Rectangle and Text
- Click Close to Save
- In Objects and Animation choose "Show Window" for the Hyperlink and in the dropdown menu choose "Window1,2,3 etc"
- Click on the Button in Preview or Exe to display the Window
- Hit Escape on keyboard to close the Window or add a Close Window Button

PTE AV Studio - https://docs.pteavstudio.com/

Close Window

• Closes the Window opened in "Show Window"
