

Add a Text Object

In Objects and Animation it is possible to add a Text Object to a Slide by clicking on the Text Icon (T) on the Menu Bar.

The Properties of the TEXT are shown in the Properties Tab on the Right.

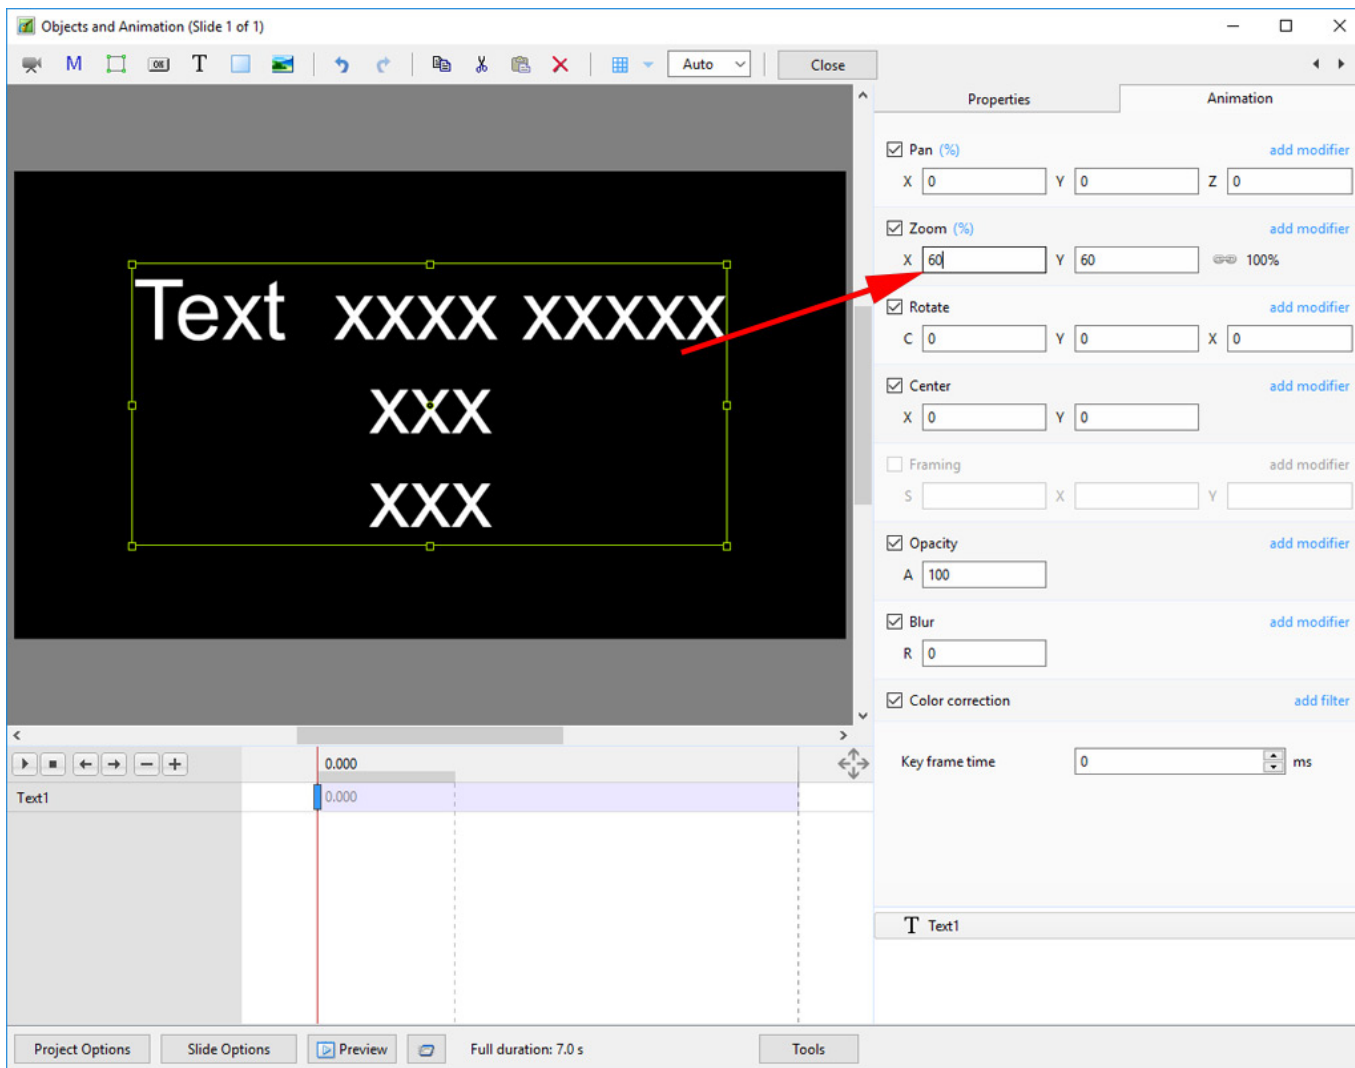

Choose a Font from the dropdown Menu and other attributes such as Bold, Italic, Underlined and/or Color.

Font Size

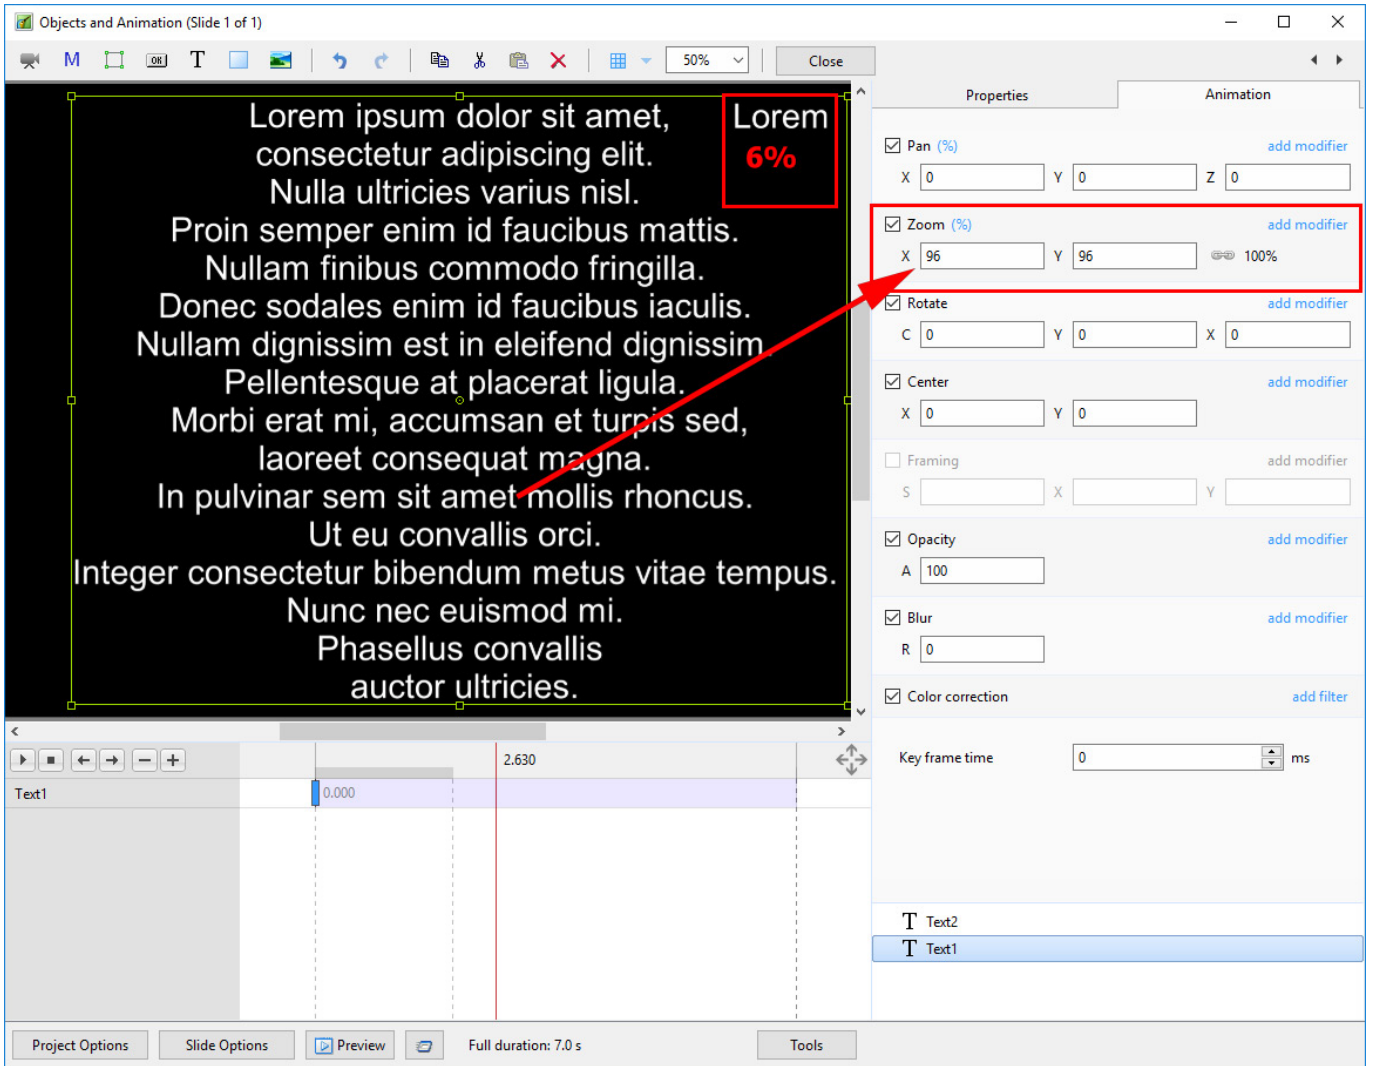

Note that there is no Font Size but that the Text Box has a Percentage Zoom which controls the size of the Font.

Note also that one line of Text in the above example = 15% Zoom. Two lines of Text = 30% Zoom; three lines of Text = 45% etc. This relationship will continue until the size of the “bounding box” is altered via a mouse action.

In the next Example it can be seen that One line of Text at 6% gives the same Font Size as 16 lines of Text at 96% Zoom. Knowing this relationship allows the user to create a consistent Font Size across multiple Slides.

Insert Text Template

This feature allows you to add a Text Template to an individual slide. It can be done globally (all slides) in Project Options / Defaults

Text

Font Name Arial

B / *I* / U

Text

Insert text template

Alignment Center

Line spacing 0

Text shadow Customize...

Choose from the options

Justification

Text

Font Name: Arial

B / U

Lorem ipsum dolor sit amet,
consectetur adipisicing elit.

[Insert text template](#)

Alignment: Center

Line spacing: Left

Text shadow

Common

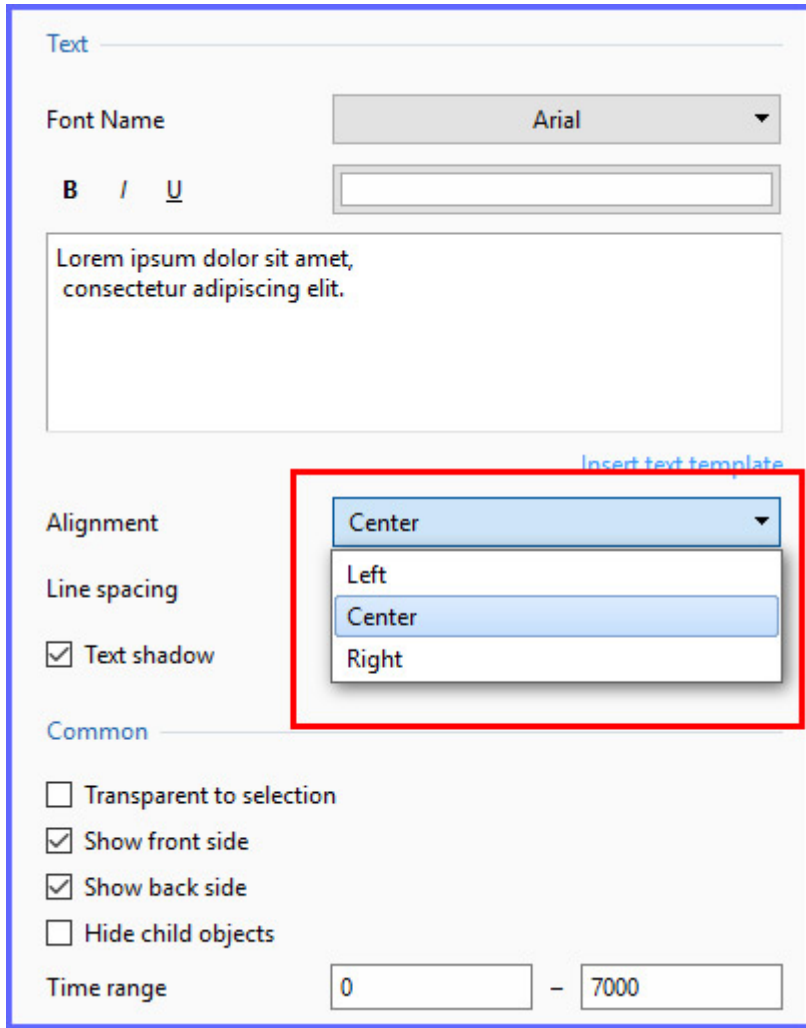

Transparent to selection

Show front side

Show back side

Hide child objects

Time range: 0 - 7000

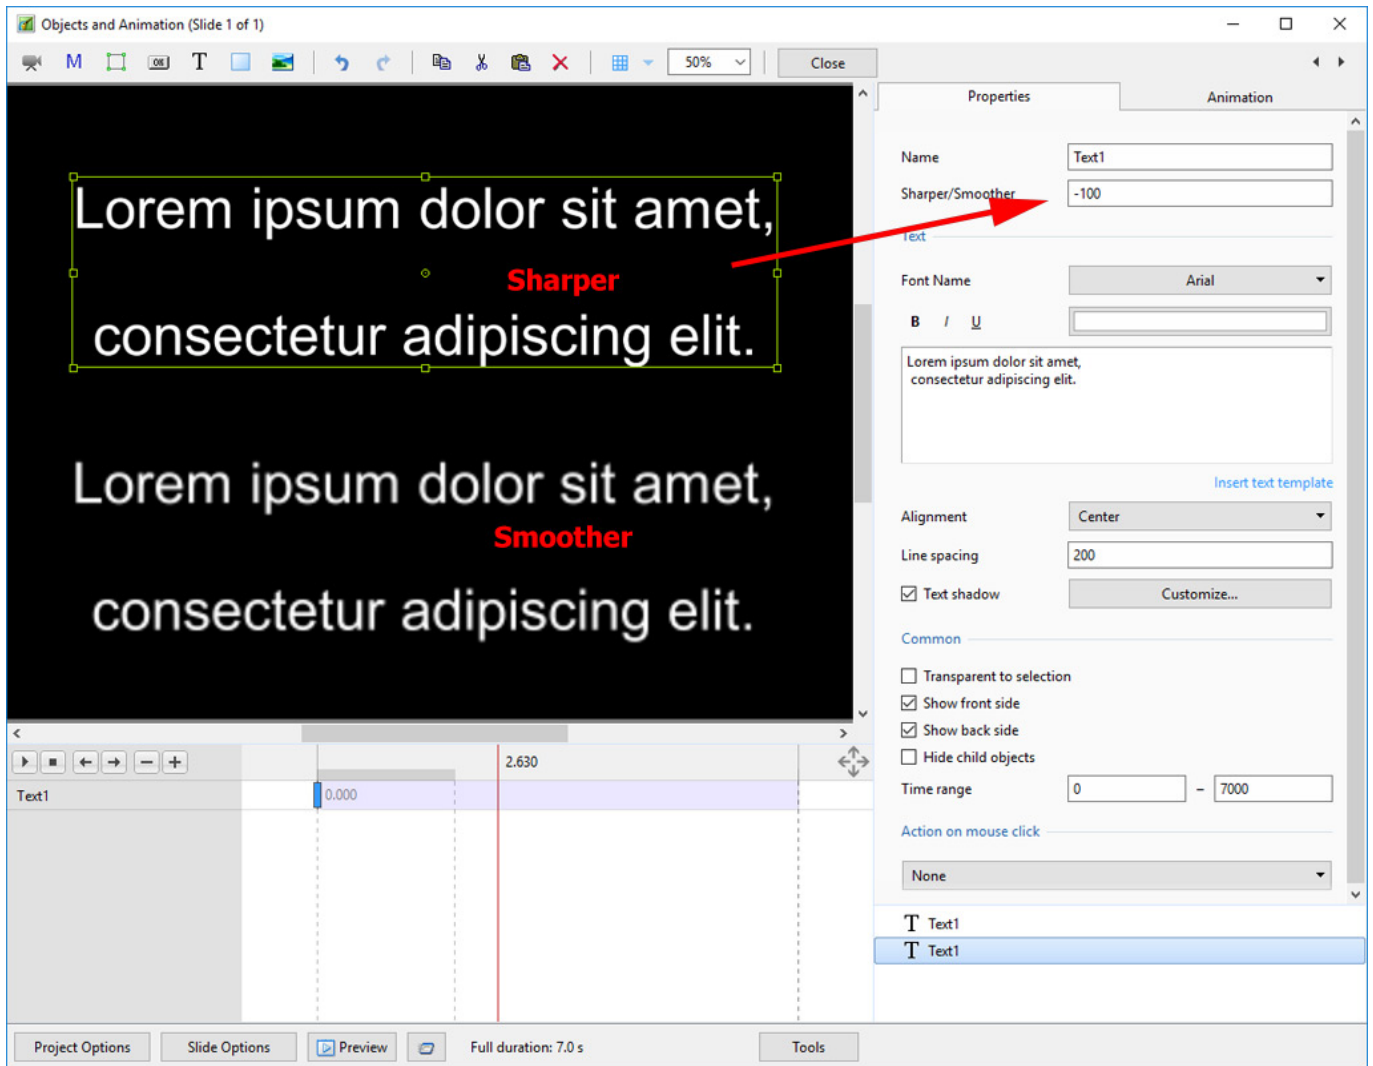

Line Spacing

The options are (-100%) to (200%). The default is Zero.

Sharper/Smother

The options are (-128 / Sharper) to (128 / Smoother).

Text Font Preview

- In Objects and Animation you can preview the appearance of different fonts in your text box as follows:
- Click on the FONT NAME Button and in the Drop-down Menu and **HOVER** the mouse over a Font

The screenshot displays the PTEA Studio software interface for editing a slide. The main window is titled "Objects and Animation (Slide 1 of 1)". The top toolbar contains various editing tools like Move, Rotate, Scale, and Delete. The central area shows a slide with a background image of a tiled floor and a text object labeled "Text" with a yellow selection box. A red arrow points from this text to the "Font Name" dropdown in the Properties panel, which is highlighted with a red box and contains the text "Arial". The Properties panel also shows "Name: Text1", "Sharper/Smoothing: -100", and "Alignment: Center". Below the slide is a timeline with a play button and a "Text1" track. The bottom of the interface has buttons for "Project Options", "Slide Options", "Preview", "Full", and "Tools".

- Using the UP and DOWN ARROWS you can now scroll through the Fonts List and Preview the Font in Real Time
- Click on the Selected Font to use it
- Used Fonts will form a list of “favourites” at the top of the Fonts List
