

Add a Text Object

In Objects and Animation it is possible to add a Text Object to a Slide by clicking on the Text Icon (T) on the Menu Bar.

Alternatively right-click on a blank space and choose Add/Text

The Properties of the TEXT are shown in the Properties Tab on the Right.

Choose a Font from the drop-down Menu and other attributes such as Bold, Italic, Underlined and/or Colour.

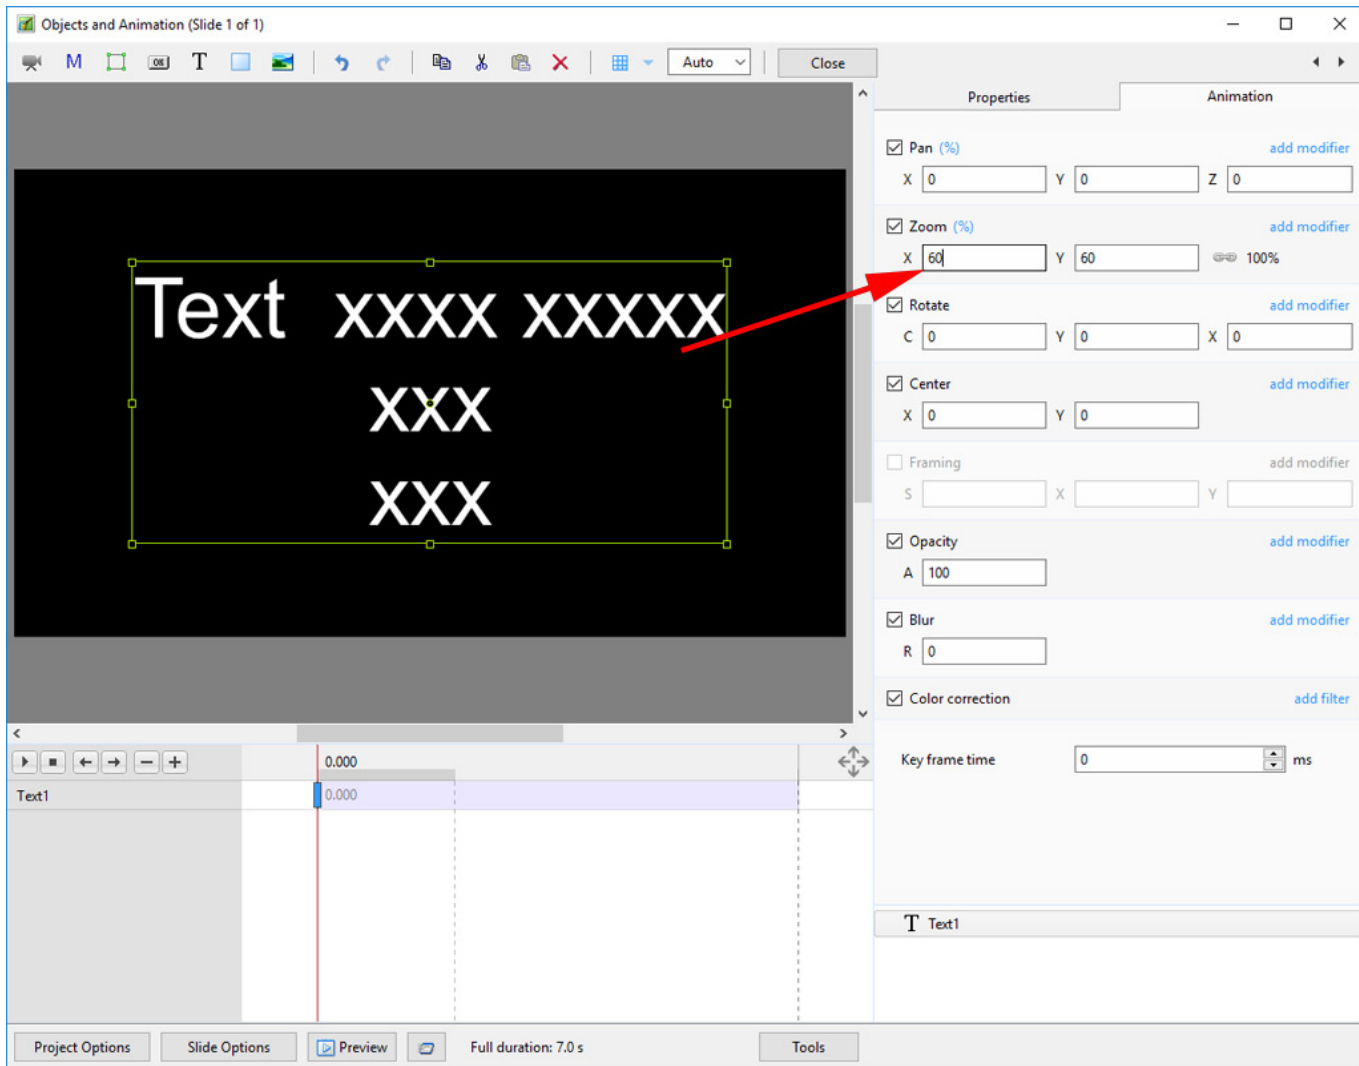

Use **“Save/Reset Font”** to set the chosen Font and its attributes as default for new Text Objects

Font Size

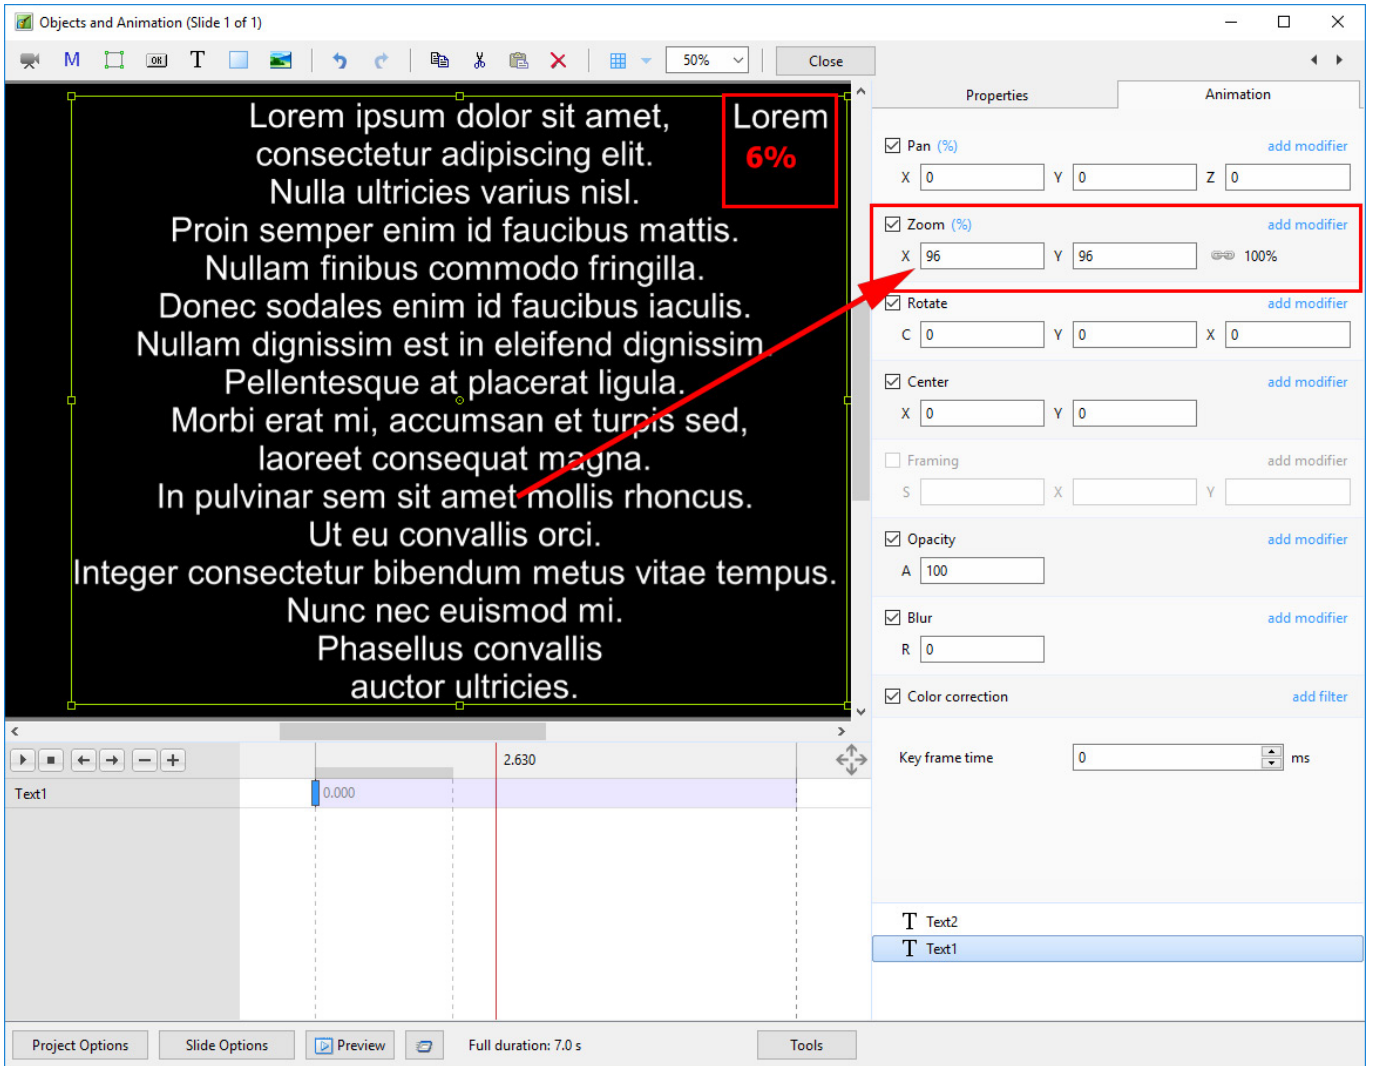

Note that there is no Font Size but that the Text Box has a Percentage Zoom which controls the size of the Font.

Note also that one line of Text in the above example = 15% Zoom. Two lines of Text = 30% Zoom; three lines of Text = 45% etc. This relationship will continue until the size of the “bounding box” is altered via a mouse action.

In the next Example it can be seen that One line of Text at 6% gives the same Font Size as 16 lines of Text at 96% Zoom. Knowing this relationship allows the user to create a consistent Font Size across multiple Slides.

Insert Text Template

This feature allows you to add a Text Template to an individual slide. It can be done globally (all slides) in Project Options / Defaults

Text

Font Name Arial

B / *I* / U

Text

Insert text template

Alignment Center

Line spacing 0

Text shadow Customize...

Choose from the options

Justification

Text

Font Name Arial

B / U

Lorem ipsum dolor sit amet,
consectetur adipiscing elit.

Text shadow

Common

Transparent to selection

Show front side

Show back side

Hide child objects

Time range 0 - 7000

Line Spacing

The options are (-100%) to (200%). The default is Zero.

Sharper/Smoothing

The options are (-128 / Sharper) to (128 / Smoother).

Text Font Preview

- In Objects and Animation you can preview the appearance of different fonts in your text box as follows:
- Click on the FONT NAME Button and in the Drop-down Menu and **HOVER** the mouse over a Font

The screenshot displays the PTEA Studio software interface. At the top, a toolbar contains various icons for editing and navigation. The main workspace shows a slide with a background image of a tiled floor featuring a central star pattern. A text object labeled 'Text' is positioned on the slide, with a red arrow pointing from it to the 'Font Name' dropdown menu in the Properties panel. The Properties panel is open, showing settings for 'Text1', including 'Name', 'Sharper/Smoothing', 'Font Name' (set to 'Arial'), 'Text' content, and 'Alignment' (set to 'Center'). A timeline at the bottom shows the duration of the text object. The bottom of the interface has buttons for 'Project Options', 'Slide Options', 'Preview', 'Full', and 'Tools'.

- Using the UP and DOWN ARROWS you can now scroll through the Fonts List and Preview the Font in Real Time
- Click on the Selected Font to use it
- Used Fonts will form a list of “favourites” at the top of the Fonts List
