

Add Text with EXIF and/or IPTC

Adding a text object in the O&A editor and adding metadata from EXIF/IPTC

The screenshot displays the PTE AV Studio Pro interface. The main workspace shows a slide with a background image of a brick archway. A text box labeled 'Text' is positioned on the right side of the slide. The Properties panel on the right is open, showing the 'Text' tab. The 'Name' field is set to 'Text1', and the 'Font Name' is 'Arial'. A dropdown menu is open, showing a list of options including 'Picture Name', 'Picture Path', and 'Slide Number'. The 'Insert text template' option is highlighted. The timeline at the bottom shows the text box starting at 0.000 seconds. The bottom status bar indicates 'Full duration: 10.0 s'.

The screenshot displays the PTE AV Studio Pro interface. The main workspace shows a video slide with a background image of a brick archway. A text box with the content "Z61_4025-1080" is positioned on the right side of the slide. The Properties panel on the right is open, showing the text "Text1" and a font set to "Arial". A dropdown menu is open under the "Text" section, listing various metadata fields such as "Picture Name", "Picture Path", "Slide Number", and "Exif Info". The timeline at the bottom shows a duration of 10.0 seconds.

The screenshot displays the PTE AV Studio Pro interface. The main workspace shows a video slide with a background image of a brick archway. A text box with the content "Z61_4025-1080" is overlaid on the image. The Properties panel on the right is open, showing a list of metadata options. The "Exif Info" option is selected, and a sub-menu is open showing options like "JPEG EXIF Description", "JPEG EXIF Comments", "JPEG EXIF Time", and "JPEG EXIF Date".
