

Add Text with EXIF and/or IPTC

Adding a text object in the O&A editor and adding metadata from EXIF/IPTC

1. Add a Text Object in Objects and Animation

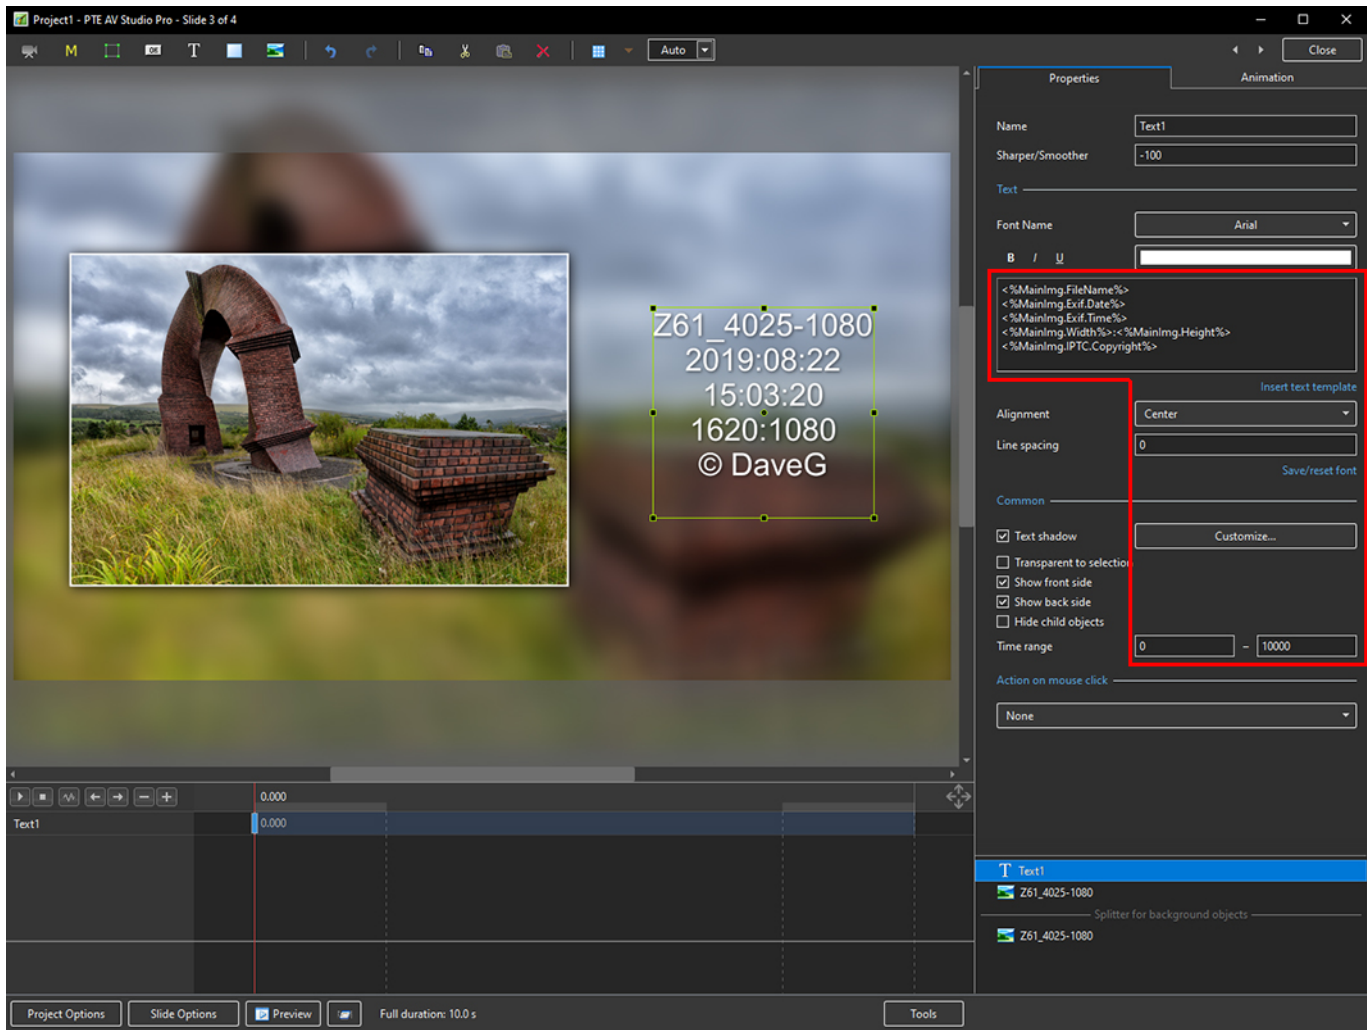

2. In the Properties Tab for the Text Object, click on Insert Text Template

The screenshot displays the PTE AV Studio Pro interface. The main workspace shows a video slide with a background image of a brick archway. A text box with the content "Z61_4025-1080" is positioned on the right side of the slide. The Properties panel on the right is open, showing settings for the selected text object. The "Text" section includes fields for Name (Text1), Sharper/Smother (-100), Font Name (Arial), and a text area containing the template code "<%MainImg.FileName%>". A dropdown menu titled "Insert text template" is open, listing various EXIF and IPTC metadata fields such as Picture Name, Picture Path, and Slide Number. The timeline at the bottom shows the text object starting at 0.000. The bottom status bar indicates a full duration of 10.0 s.

A text box with the content 'Z61_4025-1080' is positioned on the right side of the slide. The Properties panel on the right is open, showing the text's name as 'Text1' and its content as '<MainImg.FileName%>'. A context menu is open over the text box, listing various metadata options such as 'Picture Name', 'Picture Path', and 'Exif Info'. The 'Exif Info' option is highlighted. The timeline at the bottom shows the text box starting at 0.000 seconds. The interface includes a top toolbar, a bottom toolbar with 'Project Options', 'Slide Options', 'Preview', and 'Tools' buttons, and a status bar indicating a full duration of 10.0 seconds.
