

# Add a Text Object

In Objects and Animation it is possible to add a Text Object to a Slide by clicking on the Text Icon (T) on the Menu Bar.

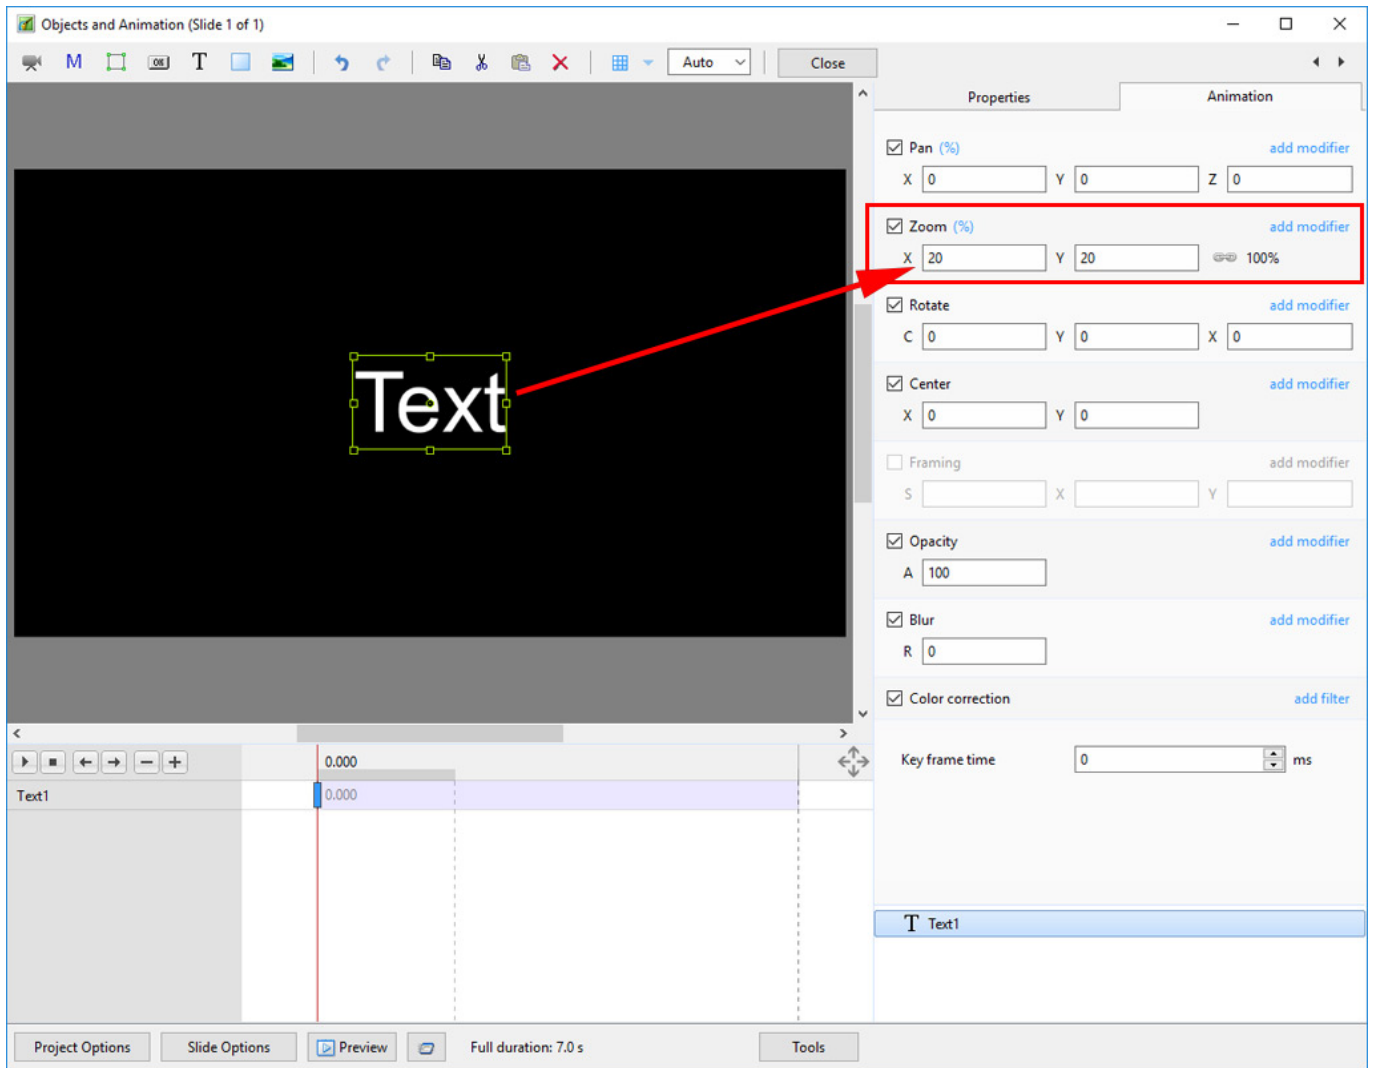

The Properties of the TEXT are shown in the Properties Tab on the Right.

Choose a Font from the dropdown Menu and other attributes such as Bold, Italic, Underlined and/or Color.

## Font Size

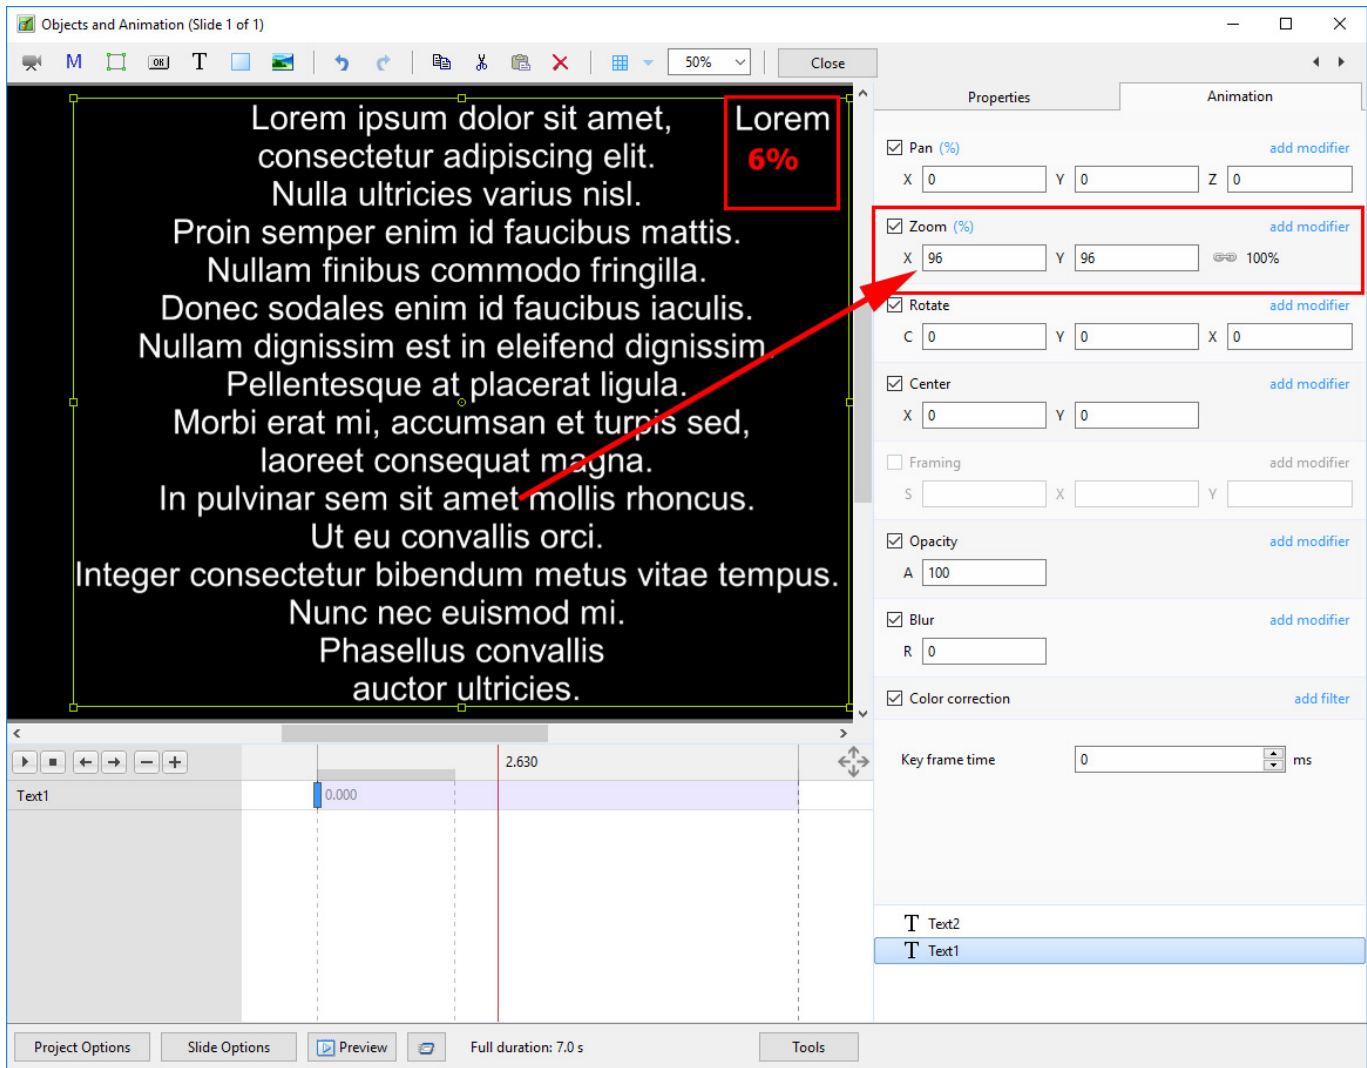

Note that there is no Font Size but that the Text Box has a Percentage Zoom which controls the size of the Font.

Note also that one line of Text in the above example = 15% Zoom. Two lines of Text = 30% Zoom; three lines of Text = 45% etc. This relationship will continue until the size of the "bounding box" is altered via a mouse action.

In the next Example it can be seen that One line of Text at 6% gives the same Font Size as 16 lines of Text at 96% Zoom. Knowing this relationship allows the user to create a consistent Font Size across multiple Slides.

## Insert Text Template

This feature allows you to add a Text Template to an individual slide. It can be done globally (all slides) in Project Options / Defaults

Text

Font Name Arial

**B** / *I* / U

Insert text template

Alignment Center

Line spacing

Text shadow Customize...

Choose from the options

## Justification

Text

Font Name Arial ▼

**B** / U

Lorem ipsum dolor sit amet,  
consectetur adipiscing elit.

Insert text template

Alignment Center ▼

Left

Center

Right

Line spacing

Text shadow

Common

Transparent to selection

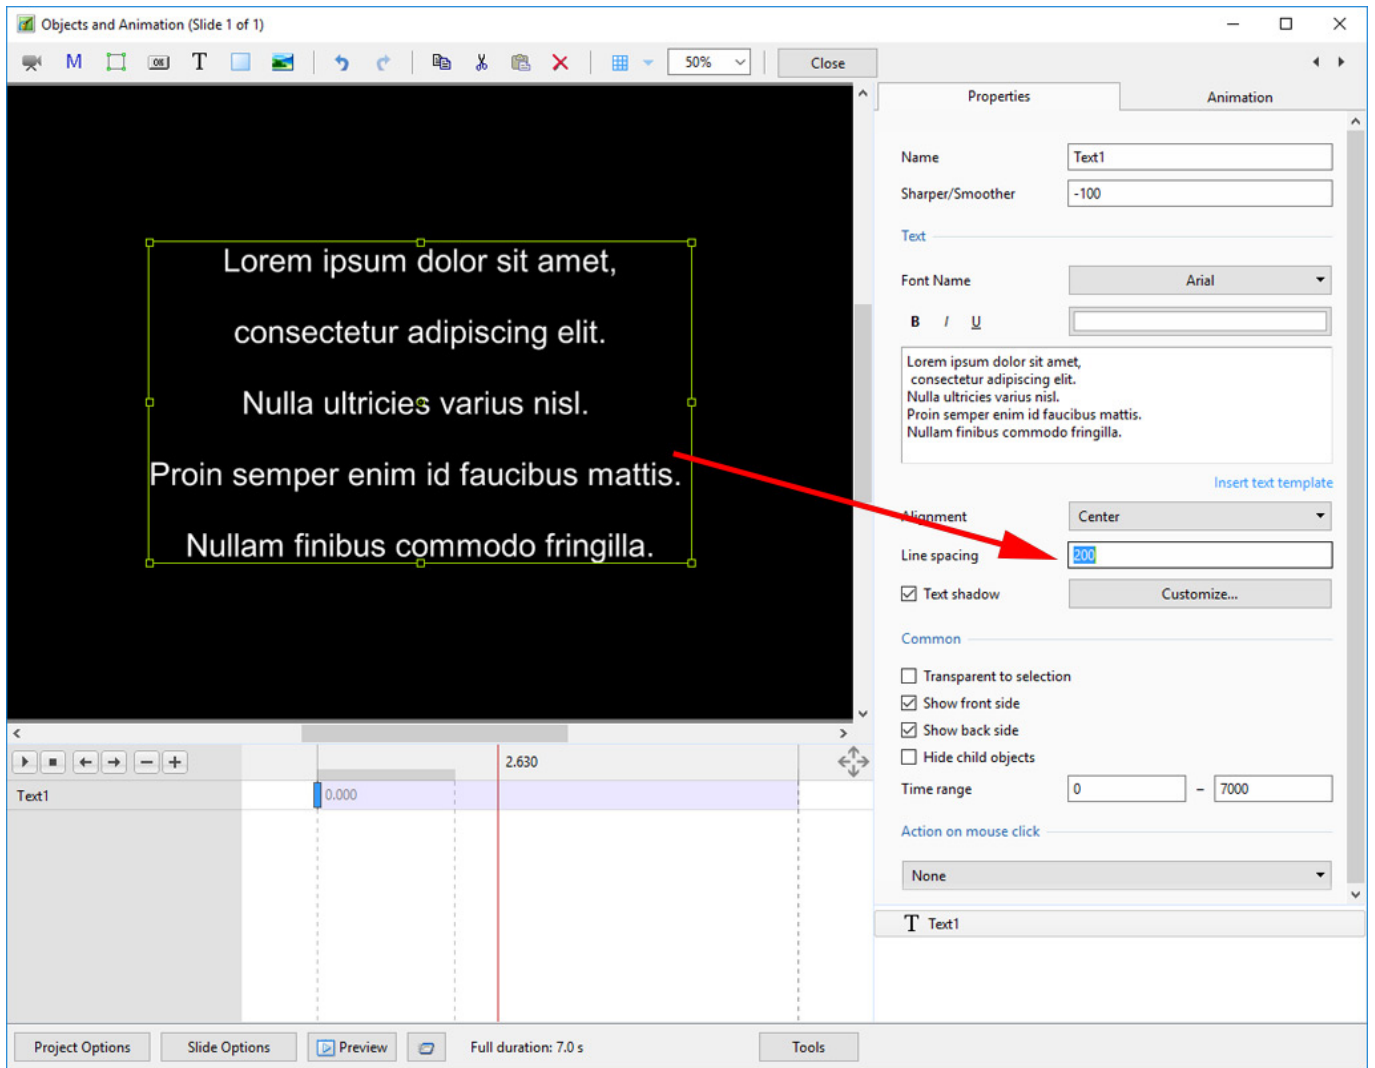

Show front side

Show back side

Hide child objects

Time range 0 - 7000

## Line Spacing

The options are (-100%) to (200%). The default is Zero.

## Sharper/Smoothing

The options are (-128 / Sharper) to (128 / Smoother).

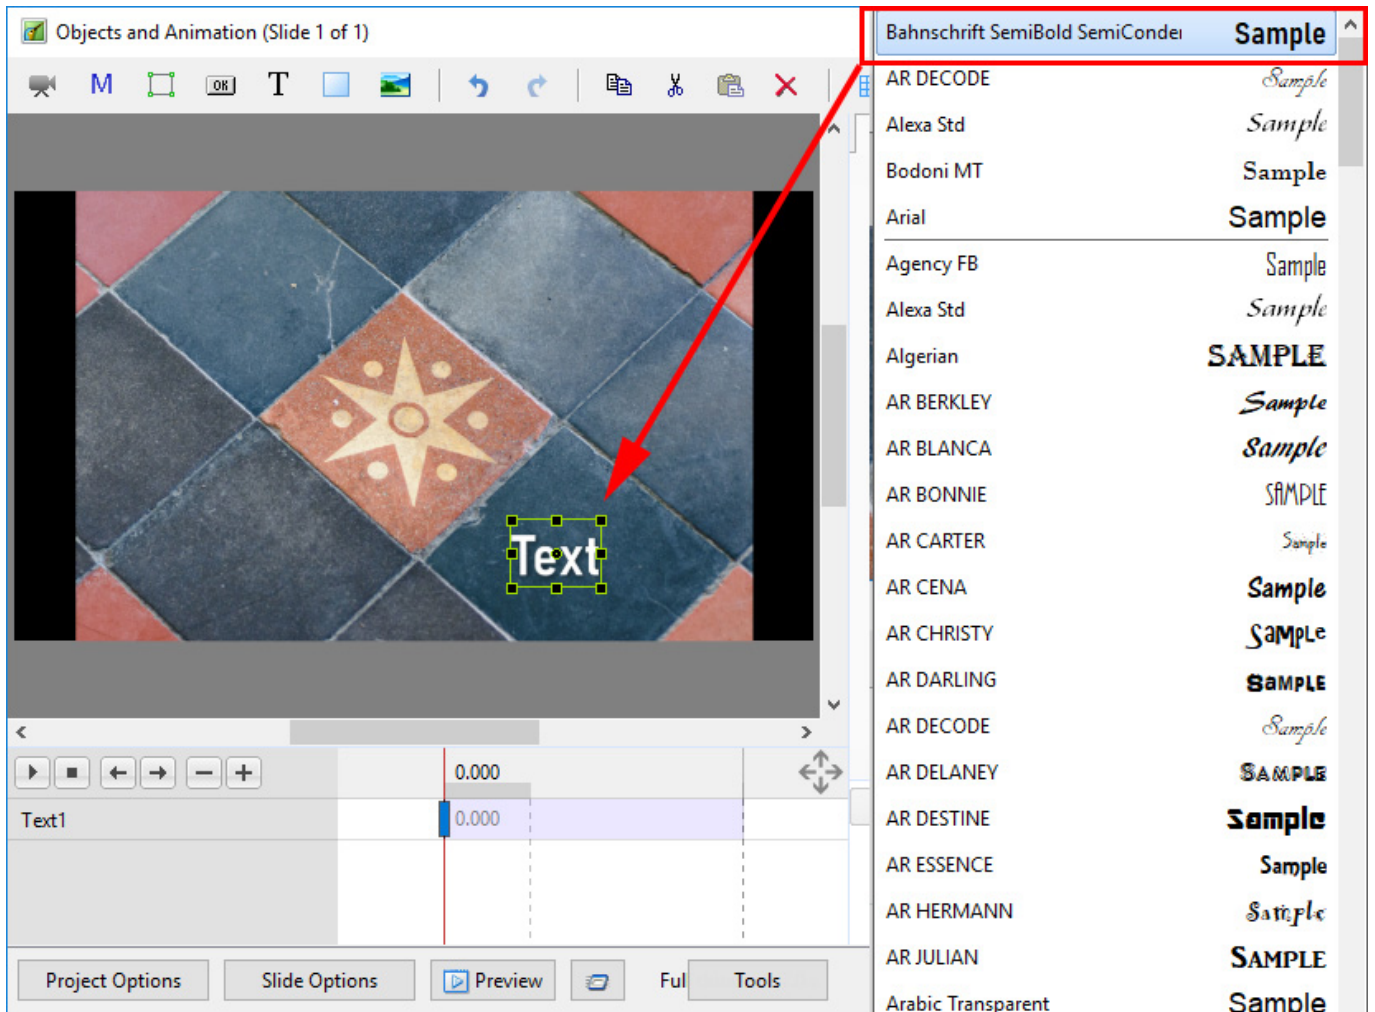

## Text Font Preview

- In Objects and Animation you can preview the appearance of different fonts in your text box as follows:
- Click on the FONT NAME Button and in the Drop-down Menu and **HOVER** the mouse over a Font

The screenshot displays the PTeam Studio interface for editing a slide. The main workspace shows a slide with a tiled background and a central star. A text object labeled 'Text' is positioned in the bottom right of the slide, with a red arrow pointing to it from the 'Font Name' dropdown in the Properties panel. The Properties panel on the right is open, showing the following settings:

- Name: Text1
- Sharper/Smother: -100
- Text: (empty text box)
- Font Name: Arial (highlighted with a red box)
- Alignment: Center

At the bottom of the interface, there is a timeline and a list of objects. The 'Text1' object is selected, and its properties are shown below it, including a small image icon and the ID '720\_2332-1'. The bottom navigation bar includes buttons for 'Project Options', 'Slide Options', 'Preview', 'Full', and 'Tools'.

- Using the UP and DOWN ARROWS you can now scroll through the Fonts List and Preview the Font in Real Time
- Click on the Selected Font to use it
- Used Fonts will form a list of “favourites” at the top of the Fonts List
