PTE AV Studio - https://docs.pteavstudio.com/

Objects & Animation Editor

O&A Editor

- The Objects and Animation Editor is shown below.
- The various elements of the window are identified.
- There are two tabs for controlling actions in the Editor, "Properties" and "Animation".
- Waveforms are shown in the O&A to aid synchronisation of Slides and Music/Commentary
- The "Close" Button Returns to the Main Window.

Show / Hide Waveform

• This feature is only available in the Deluxe Edition

Last update: 2022/12/19 en-us:10.0:objectsandanimation_1:main_window https://docs.pteavstudio.com/en-us/10.0/objectsandanimation_1/main_window?rev=1574290164

The Tools Menu

					✓ <u>∽</u> 720_0119_1649 <u>∽</u> 261_2779-1	
	a der eine in wertigten der ster der der eine der eine eine State der einer Stat	-	125%		Undo All Changes Redo All Changes	
			150% 175% 200% 250% 300%		Show Grid Ignore Objects Not Selected Hide Selection on Pan/Zoom/Rotate Show Safe TV Zone	Ctrl+G Alt+I
			400% Full View of Waveforms Show Waveforms	Ctrl+T	Show Sale I'v Zone Show Global Times of Key Frames Key Frame Width Waveforms	Alt+G >

• Click on Tools and Waveform to display the Waveform options

- The height of the Waveform can be selected between 100% and 400%
- The Full View of the Waveform is shown when the appropriate box is ticked
- The Compact View of the Waveform is shown when the box is un-ticked
- Clicking on Show Waveform (Hotkey Ctrl+T) toggles the Waveform display on or off

The Grid

- Click on the Grid Icon to apply the Grid (Ctrl + G)
- · Click on the down arrow to show the Grid Options
- Select the colours of the Minor and Major Grid Lines
- Select "In Pixels" or in number of divisions per image
- There are 10 minor divisions between Major Grid Lines in the X and Y directions
- Select "Snap to Grid" on or off
- Select "offset" in X and Y directions

3/6

- In Pixels Mode the size and AR of the grids are set by entering a fixed pixel dimension
- The Grid is therefore made up of squares
- With "In Pixels" turned off the size and Aspect Ratio of the grid is determined by the numbers set
- In the first example above the Grid has been "Centred" by setting a 20×20 Grid
- The second example shows a "Rule of Thirds" Grid
- With "Snap To Grid" ticked the Image/Object will snap to a Major or Minor Grid Line in either direction if dragged close enough

Add an Object

Last

update: 2022/12/19 en-us:10.0:objectsandanimation_1:main_window https://docs.pteavstudio.com/en-us/10.0/objectsandanimation_1/main_window?rev=1574290164 11:45

- Add a Video, Mask, Frame, Button, Text, Rectangle or Image Object
- Please refer to Add Object articles in the How To Section of the Main Menu
