

Add a Text Object

Add a Text Object

In Objects and Animation it is possible to add a Text Object to a Slide by clicking on the Text Icon (T) on the Menu Bar.

Alternatively right-click on a blank space and choose Add/Text

* The Highlighted "Text" in the Text Box can then be overwritten with the user's own required Text

The Properties of the TEXT are shown in the Properties Tab on the Right.

Choose a Font from the drop-down Menu and other attributes such as Bold, Italic, Underlined and/or Colour.

Use "Save/Reset Font" to set the chosen Font and its attributes as default for **new** Text Objects

Font Size

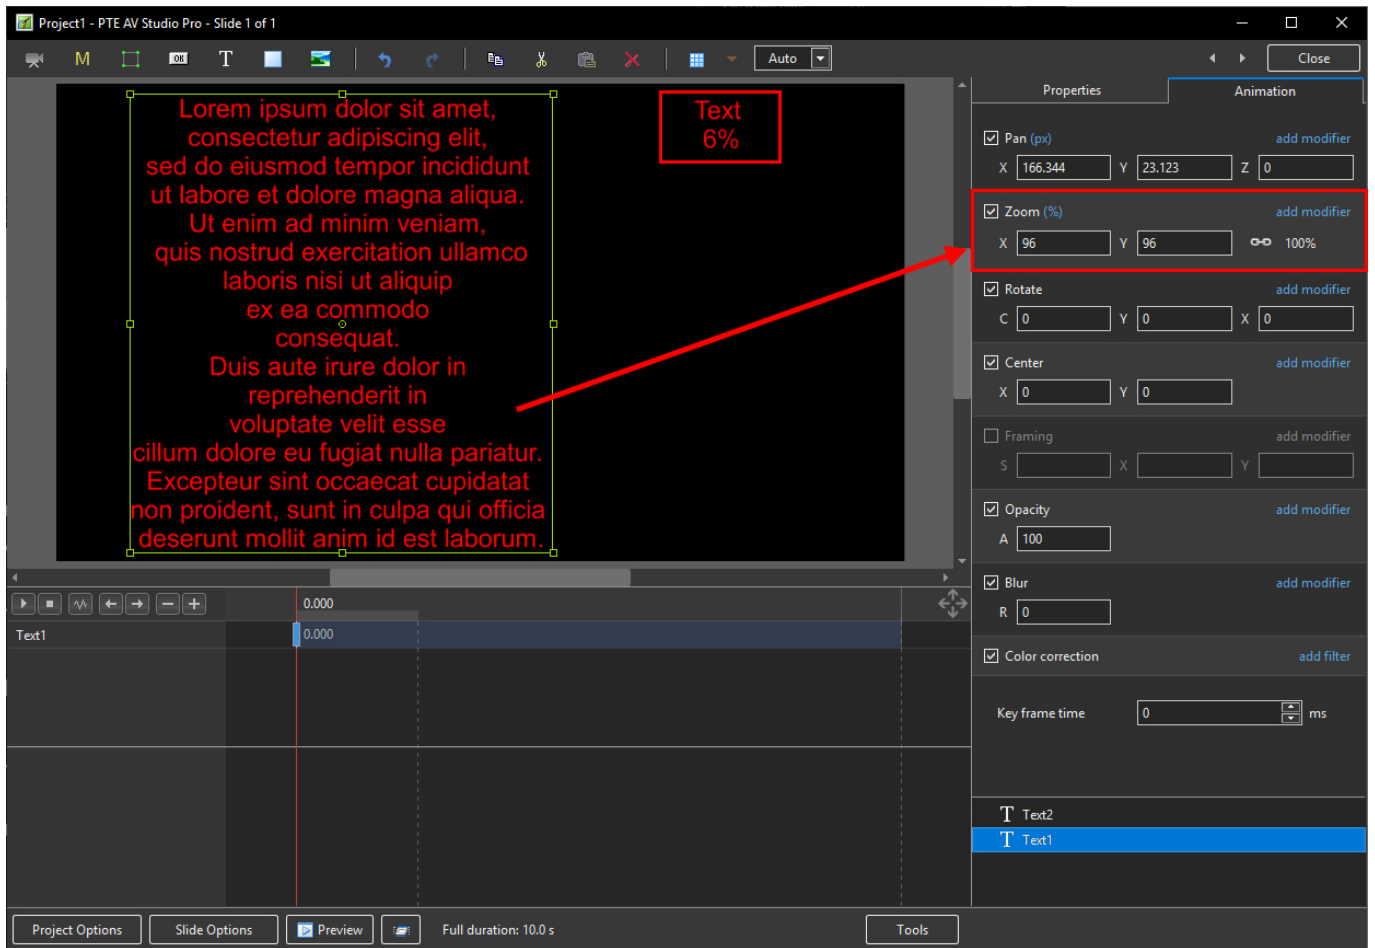

Note that there is no Font Size but that the Text Box has a Percentage Zoom which controls the size of the Font.

Note also that one line of Text in the above example = 15% Zoom. Two lines of Text = 30% Zoom; three lines of Text = 45% etc. This relationship will continue until the size of the “bounding box” is altered via a mouse action.

In the next Example it can be seen that One line of Text at 6% gives the same Font Size as 16 lines of Text at 96% Zoom. Knowing this relationship allows the user to create a consistent Font Size across multiple Slides.

Insert Text Template

This feature allows you to add a Text Template to an individual Image/Object. It can be done globally (all slides) in Project Options / Defaults

- Assign the Image/Object "Main Image 1"
- Right Click on the Object/Image and choose Add/Text
- Click on Insert Text Template

Text

Font Name Arial

B / *I* / U

Text

Insert text template

Alignment Left

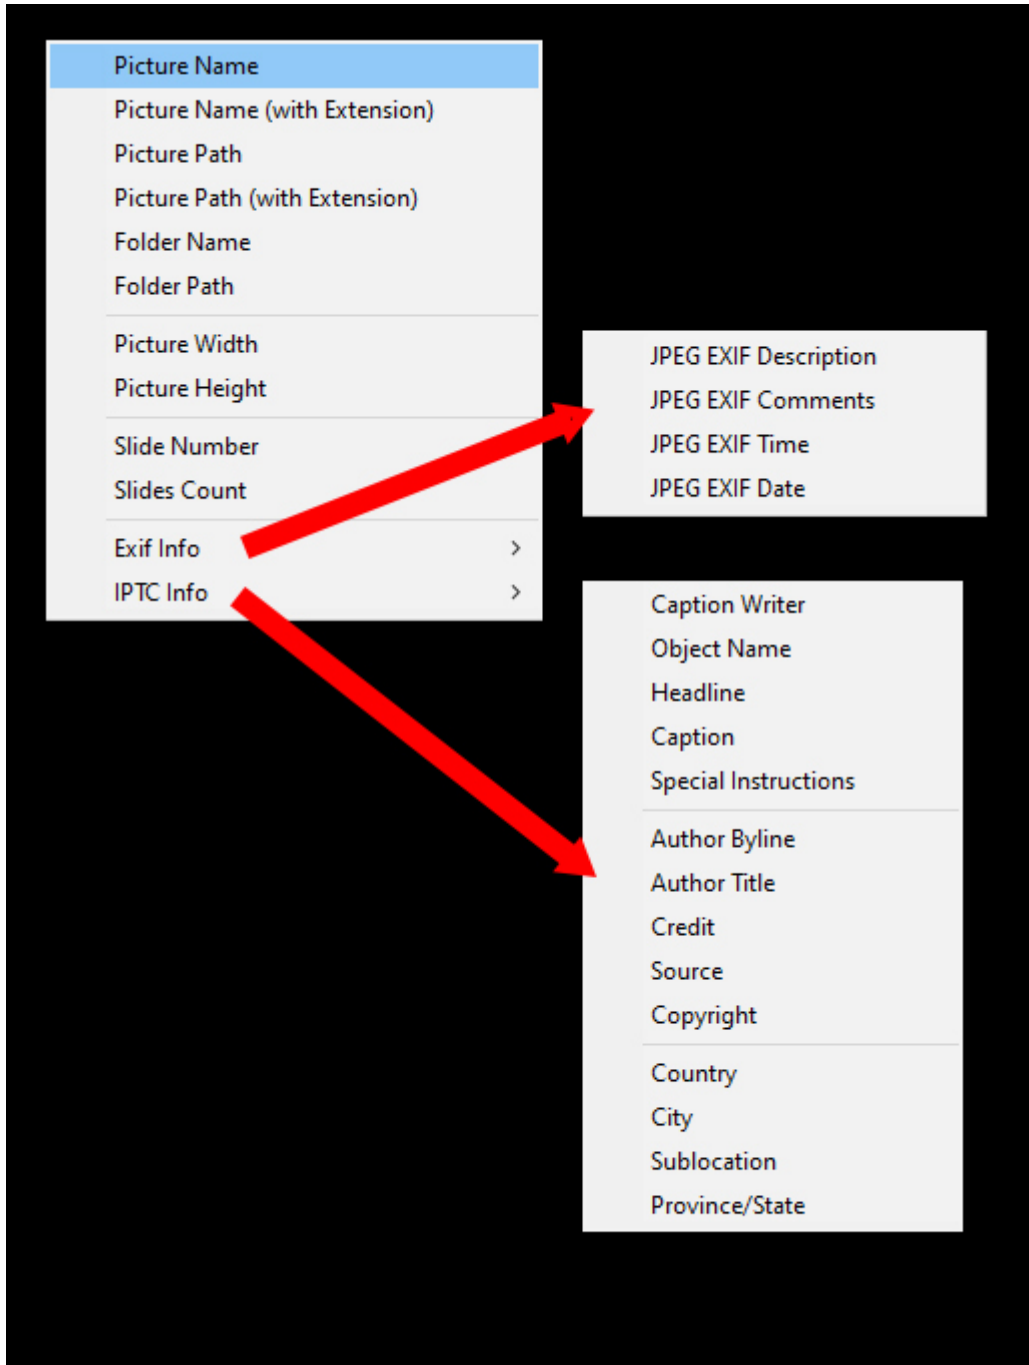

Line spacing

[Save/reset font](#)

Text shadow Customize...

Animation Customize...

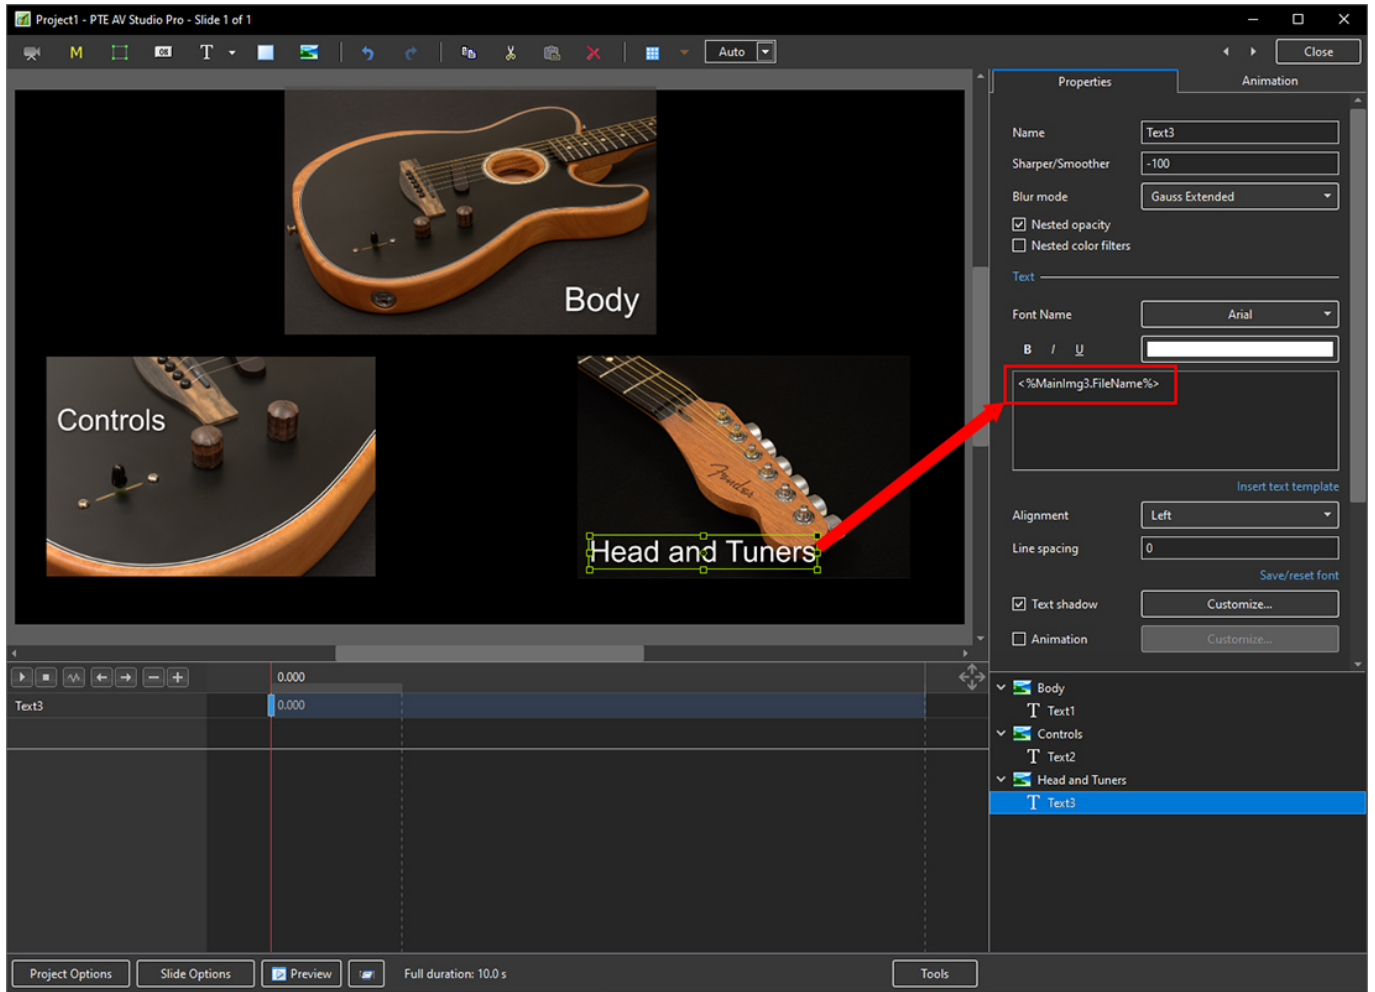

- Choose the required option

- The resulting Text Macro is shown below

- For subsequent Image/Objects Assign Main Image 2;3 etc
- In the Text Macro change the MainImg1 to MainImg2; 3 etc

Justification

Text

Font Name Arial

B / U

Lorem ipsum dolor sit amet,
consectetur adipisicing elit.

[Insert text template](#)

Alignment Center

Line spacing

Text shadow

Common

Transparent to selection

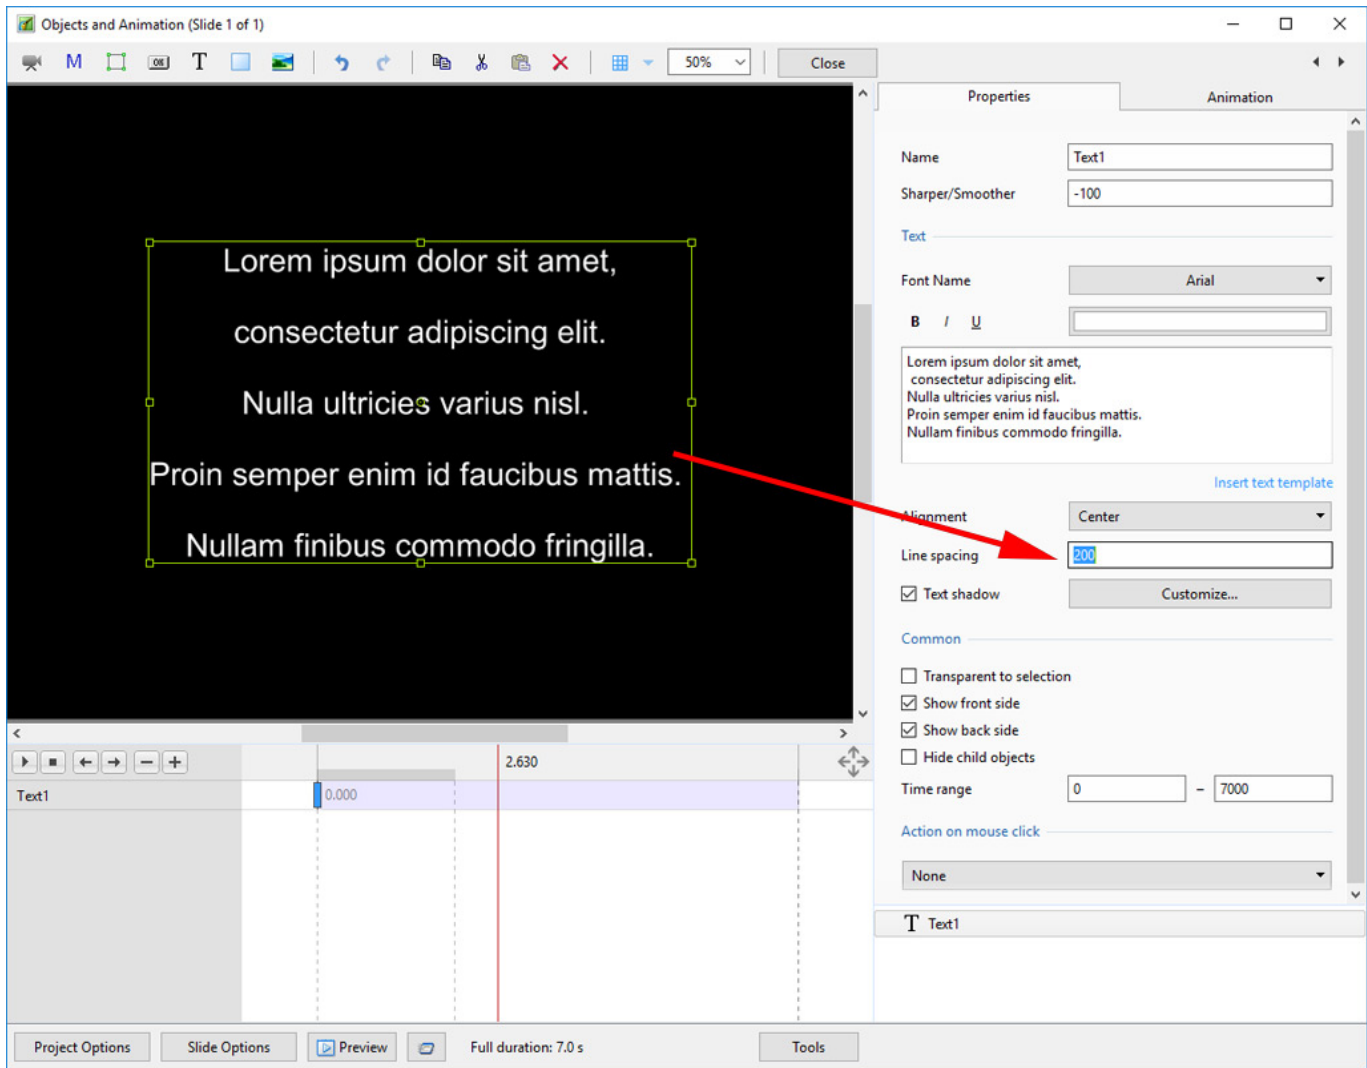

Show front side

Show back side

Hide child objects

Time range 0 - 7000

Line Spacing

The options are (-100%) to (200%). The default is Zero.

Sharper/Smoothing

The options are (-128 / Sharper) to (128 / Smoother).

Text Font Preview

- In Objects and Animation you can preview the appearance of different fonts in your text box as follows:
- Click on the FONT NAME Button and in the Drop-down Menu and **HOVER** the mouse over a Font

The screenshot displays the PTEA Studio interface for editing a slide. The main window shows a slide with a background image of a tiled floor featuring a central star pattern. A text object labeled 'Text' is positioned on the slide, with a red arrow pointing from it to the 'Font Name' dropdown menu in the Properties panel. The Properties panel is open, showing the following settings:

- Name: Text1
- Sharper/Smother: -100
- Font Name: Arial (highlighted with a red box)
- Text: (empty text box)
- Alignment: Center

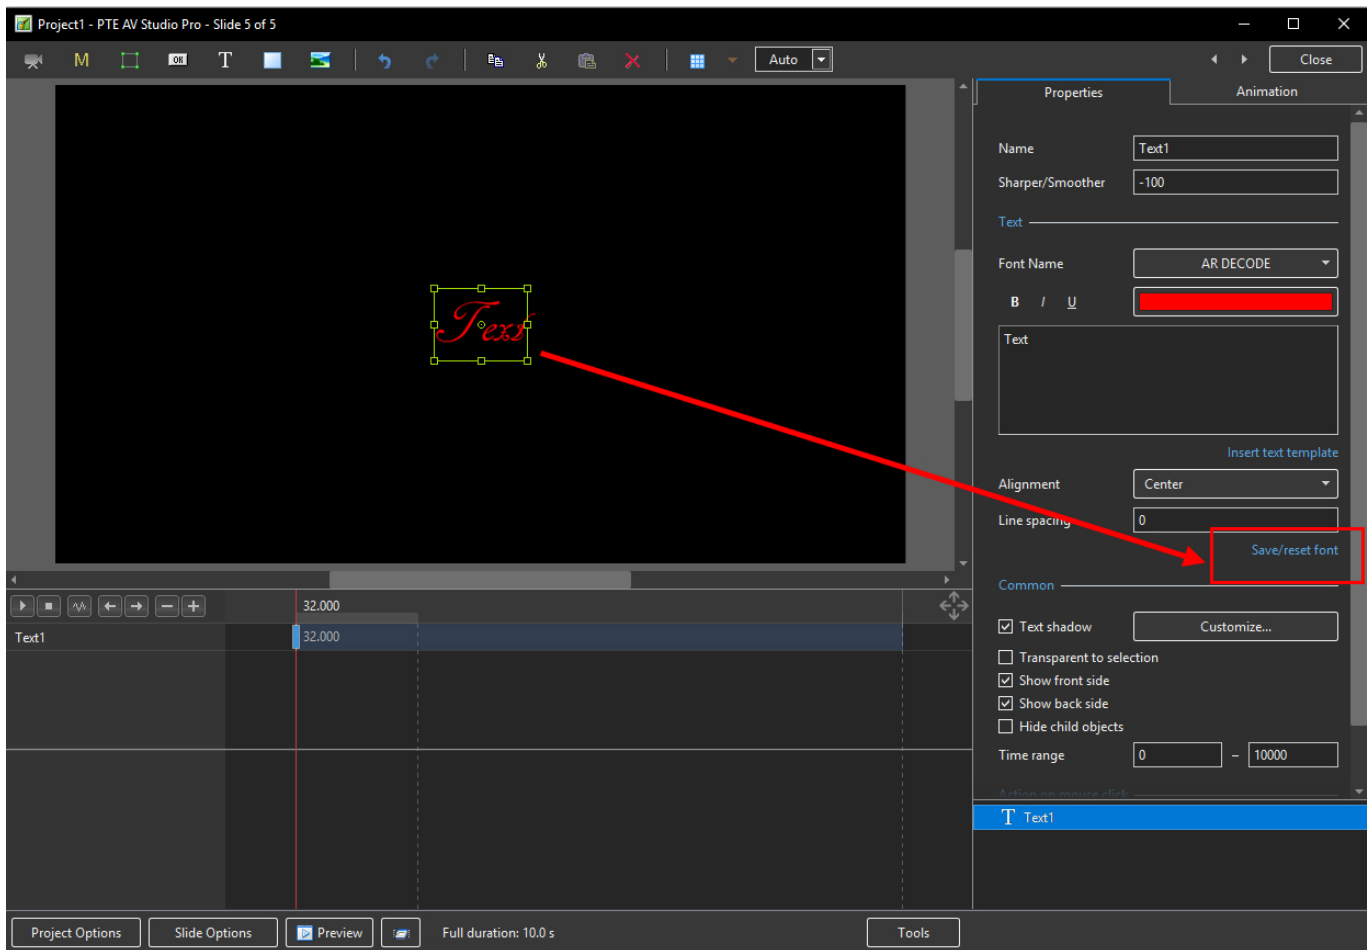

The timeline at the bottom shows a duration of 0.000 for the text object. The interface includes a top toolbar with various editing tools, a bottom toolbar with 'Project Options', 'Slide Options', 'Preview', 'Full', and 'Tools' buttons, and a 'Close' button in the top right corner.

- Using the UP and DOWN ARROWS you can now scroll through the Fonts List and Preview the Font in Real Time
- Click on the Selected Font to use it
- Used Fonts will form a list of “favourites” at the top of the Fonts List

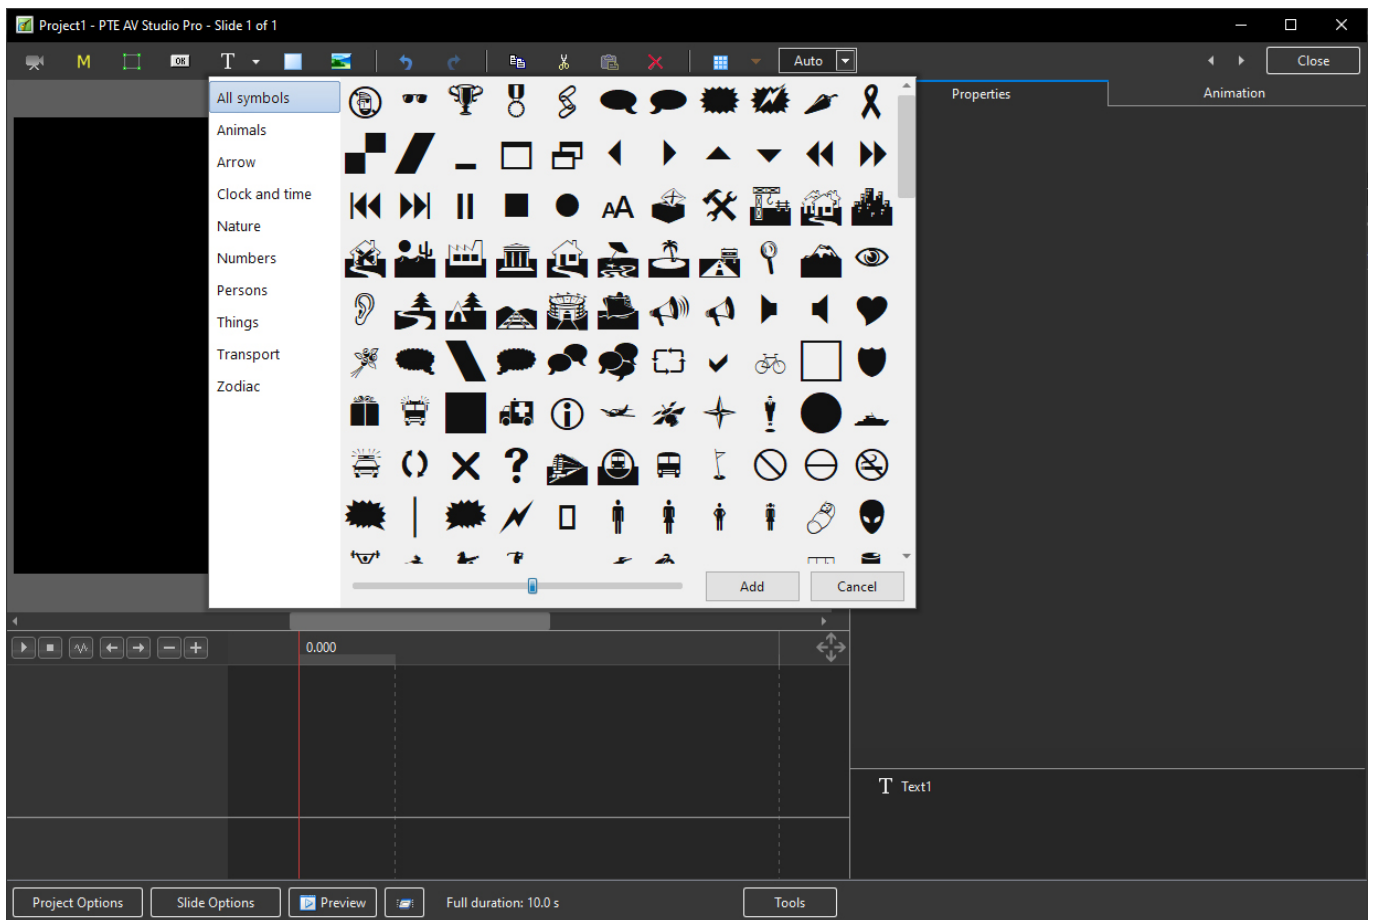

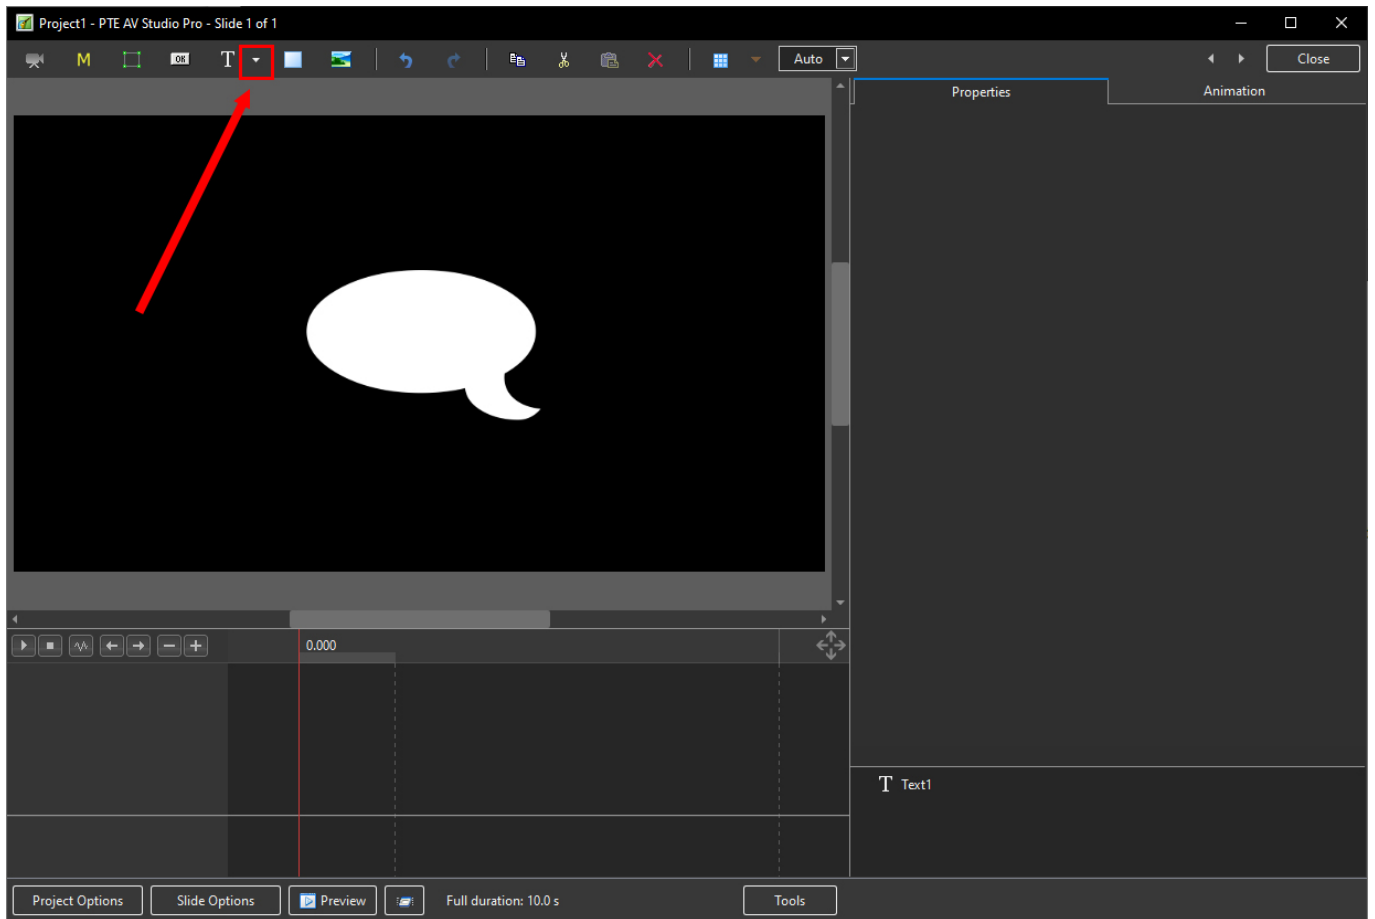

Setting Text Defaults

- To set the Text Defaults for a Project click on the “Save / Rest Font” Command

Add a Symbol (Vector Icon)

- Symbols can be scaled to any size without loss in quality
- The Colour of a Symbol can be changed
- The Shadow of a Symbol can be adjusted
- The Shadow of a Symbol can be adjusted
- In the Objects and Animation Editor Right click in a blank space and choose "Add > Symbol" (Ctrl 8) or click on the Icon next to the "T" for a dropdown Menu
