

# Master / Link Video

## Run a video clip over multiple slides

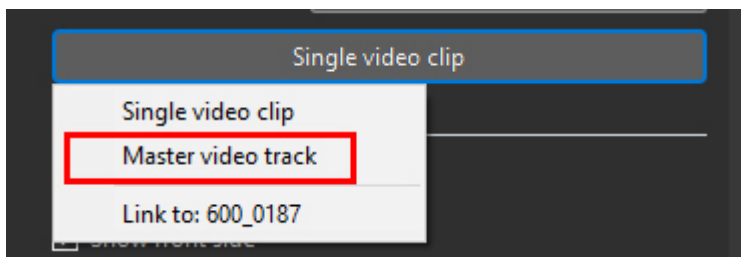

- Example:
- To run a 32 second video clip continuously over four 8 second slides
- Add four 8 second blank slides to a project (“Show Full Slide Duration” OFF in Preferences/Project)

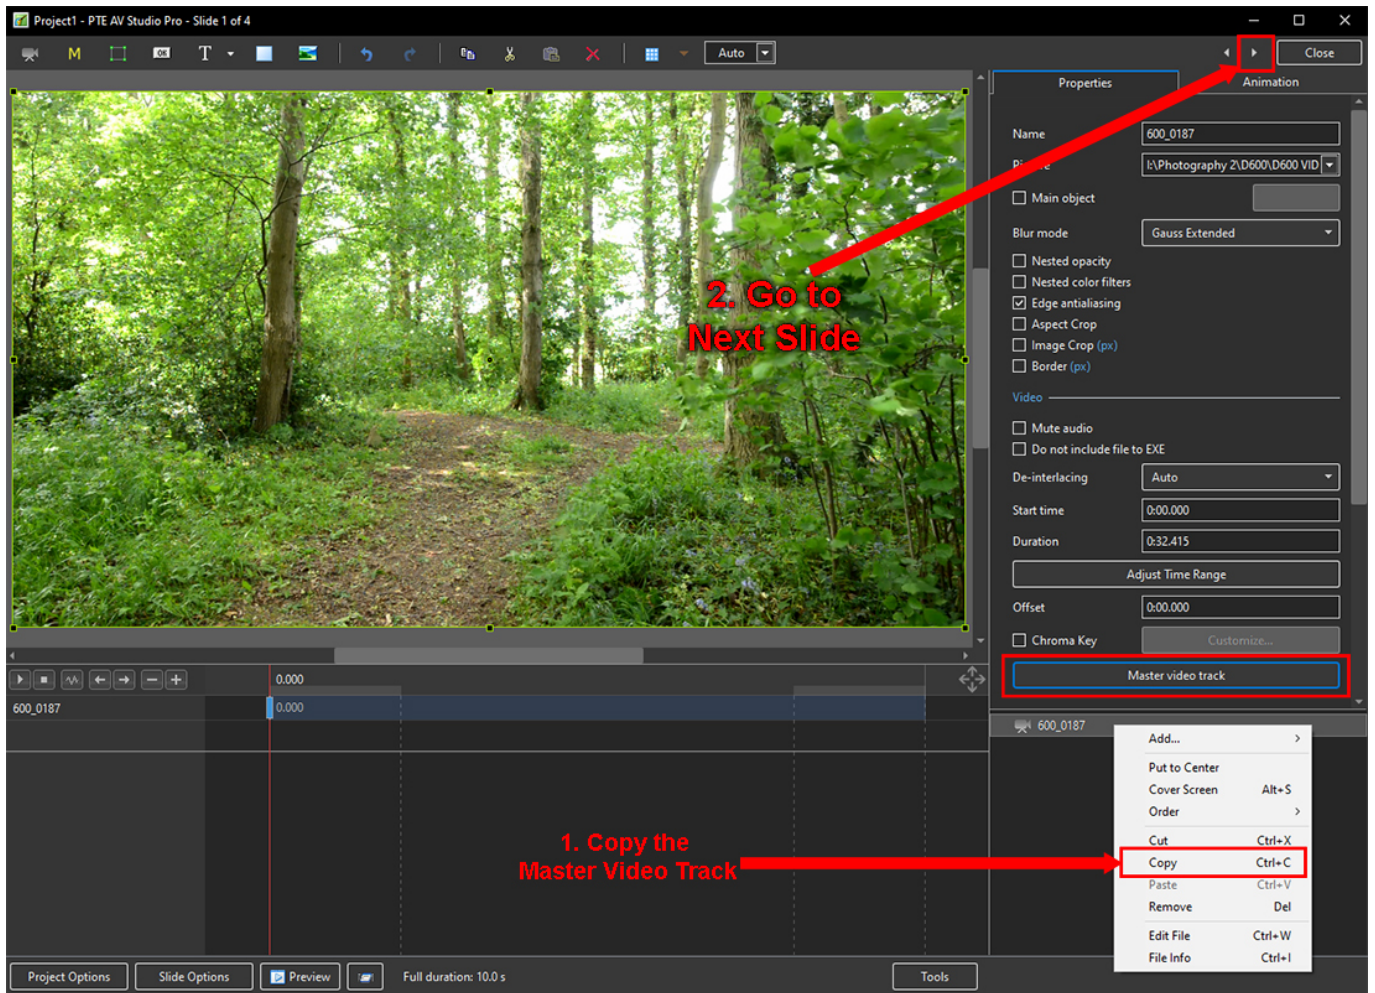

- Open Slide 1 in the **Objects and Animation Editor** and add the 32 second video

- Change “Single Video Clip” to “Master Video Track”

- In the Objects and Animation Editor, copy the Master Video Track and navigate to Slide 2 (Next Slide)

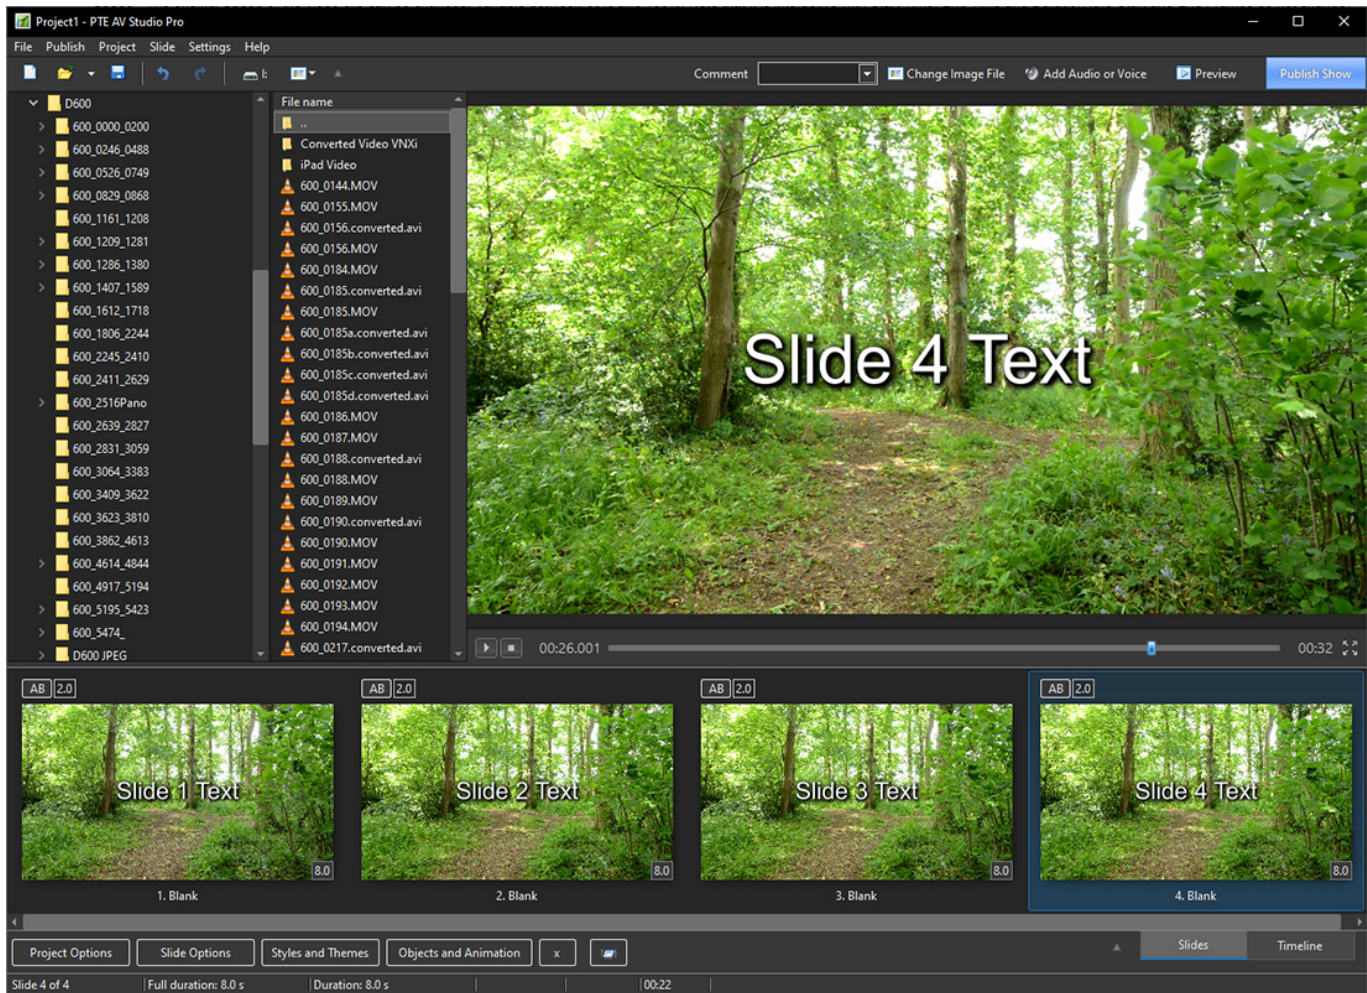

- Paste the Copied Master Video Track
- Note that the Video Clip is automatically designated "Link to: (Master Video Track)"

The screenshot displays the PTE AV Studio Pro interface. The main preview window shows a lush green forest scene. Below the preview is a timeline with a video clip labeled '600\_0187' starting at 0.000. The 'Properties' panel on the right is open, showing various settings for the clip. A red box highlights the 'Link to: 600\_0187' button in the Properties panel, with a red arrow pointing to it from the text below. The text 'Video Clip is Automatically linked to the Master Video Clip after pasting' is written in red in the timeline area.

**Video Clip is Automatically linked to the Master Video Clip after pasting**
