

Parent and Child Animation

Parent and Child Animation in Rotating Objects

- This “How To” deals with using Parent and Child relationships to rotate an Object/Image through 180 degrees and see the “Back” side of the image as a different Object/Image

Add An Image

- Add an image to the Slide in Objects and Animation and add a Key-Frame at the end of the time line
- Click on KF2 and set Rotate to 180 degrees
- Play the animation
