

The Tools Menu

* This menu is accessed via the “Tools” button at the bottom of the Objects and Animation Editor screen.

Show Grid

- Displays a configurable Grid over all slides in the Objects and Animation window
 - This duplicates the Show/Hide Grid control and its Grid Options window

Ignore Objects not Selected

Hide selection on Pan/Zoom/Rotate

Show Safe TV Zone

Show Global Times of Key Frames

- When ticked shows the Key Frame times from the beginning of the project.
- When un-ticked, Key Frame times are show from the beginning of the slide

Key Frame Width

- This enables the width/thickness of Key Frames to be adjusted.

Waveforms

- Shows the Options for the Waveforms in Objects and Animation
