- In the example above you are told that the Style requires one image and that you have correctly supplied one image
- It is possible to add more than one image, highlight them all and the Style will be applied to all
- The Preview Screen will show the animation/effect
- The Speed and Full Duration of the Style are interlinked and either can be used to match the Style to your desired Duration
- The Options parameter varies and is at present only available in PTE's own Preset Styles

- In the example above you are told that the Style requires six images and that you have incorrectly supplied five images
- You can add image(s) by either clicking on the Add Images Button or the + (Plus) Button
- Th Preview Screen will show the animation/effect
- The Speed and Full Duration of the Style are interlinked and either can be used to match the Style to your desired Duration

• In the main window, it's possibly to quickly apply a slide style for selected images in the File List and add slides to your project (See above example)

3/4

• When you selected several non-consecutive slides (for example 1, 3, 7, etc) and apply a single style (which uses 1 picture), it's possible to keep original order of slides. Tick the option "Keep slide order" (See above)
