# **Create Custom Transitions**

- To Enter the Custom Transition Effect Window click on the AB symbol in a slide or:
- Click on Project Options / Transitions
- Then click on the Manage Transitions button

- Give the Transition a descriptive name
- Choose an existing Category or Type in a New Category Name
- Next, choose a Variant

Last update: 2022/12/18 en-us:9.0:how\_to\_v9:customtransitions https://docs.pteavstudio.com/en-us/9.0/how\_to\_v9/customtransitions?rev=1581508742 11:20

Create transition effect	×
Common options	
Name	My transition effect
Category	Custom transitions $\checkmark$
Storage	
Location for this Transition	In the global storage 🔹
Variants	
Mode Edit	Single variant  Single variant Multiple variants - list
Background of transition	Multiple variants - buttons
<ul> <li>Solid color</li> <li>Gradient</li> <li>Image</li> <li>Use background from slide</li> <li>Transparent background of slides</li> </ul>	Dissolve
	OK Cancel

• E.g. Multi Variant - List

Create transition effect	×
Common options	^
Name	My transition effect
Category	Custom transitions $\checkmark$
Storage	
Location for this Transition	In the global storage 🔹
Variants	
Mode	Multiple variants - list 🔹
🕂 🗕 Duplicate Ed	it Rename 🌓 👢
Variant 1	
Variant 2	
Variant 3	
Background of transition	
O Solid color	Dissolve 👻 🗸
	OK Cancel

- Click on "+" to add a Variant
- Click on "-" to delete the selected Variant
- Click on "Rename" to give the Variant an appropriate Name

### **Single Variant**

# ×

• The Aspect Ratio is automatically chosen to suit the Project Options AR

### Multi Variant - List

# ×

- Click on "+" to add a Variant to the List
- Click on "-" to Delete a Variant
- Click on Edit to proceed to the Editor
- Close the Editor Window by clicking on the "X" at top right to return to this Window
- Click on OK to Save

#### **Multi Variant - Buttons**

## ×

- Choose a Preset Variant
- Click on an Arrow Button
- Click on Edit to proceed to the Editor
- Close the Editor Window by clicking on the "X" at top right to return to this Window
- Click on OK to Save

After Creating a Custom Transition it would be good practice to Export it to a folder somewhere on your HD called "Exported Slide Styles"

# **Global vs Embedded Transitions**

- The **Global Transitions** section contains both the Preset PTE Transitions and the Custom Transitions which you can Create yourself or Import from the Forum etc.
- The "Manage Transitions" button has a dropdown menu which allows the Option to "Clone" a Custom Transition
- The Cloned Copy can then be either edited to create a Variation or "Moved to the Local Storage" (**Embedded Transitions**)
- When creating a "Backup in ZIP" (BIZ) to export to another PC which might not have the Custom Transition it is included for use when the BIZ is unzipped
- The Global Custom Transitions are Embedded in Executable files
