If a single slide is added to the Slide List the Main Screen View looks like this:

Last update: 2022/12/18 11:20 en-us:9.0:how\_to\_v9:duration https://docs.pteavstudio.com/en-us/9.0/how\_to\_v9/duration?rev=1491419280

The Status bar shows the Full (Slide) Duration and the (Slide) Duration. The Slide Icon displays the Slide Duration. For a single slide the Duration will equal the Full Duration because there is no following slide transition time to take into account - or the following slide transition time is zero.

The corresponding Objects and Animation Screen looks like this:

## Adding another slide

## Show Full Slide Duration Un-Ticked:

Adding a second slide with a 2 second transition time causes a change in the displayed (Slide) Duration. Note that the Full (Slide) Duration remains the same.
