

Project/Preferences/Slide Settings

Project, Preferences and slide settings are three key options of PicturesToExe which the user needs to address when creating a project.

- **Project Settings** - control various setting parameters for each individual project or AV show
- **Preferences** - provide a range of setting parameters which can be set up as the default for all projects
- **Slide Settings** - provide a range of setting parameters which can be applied to individual slide or to a selected range of slides.
