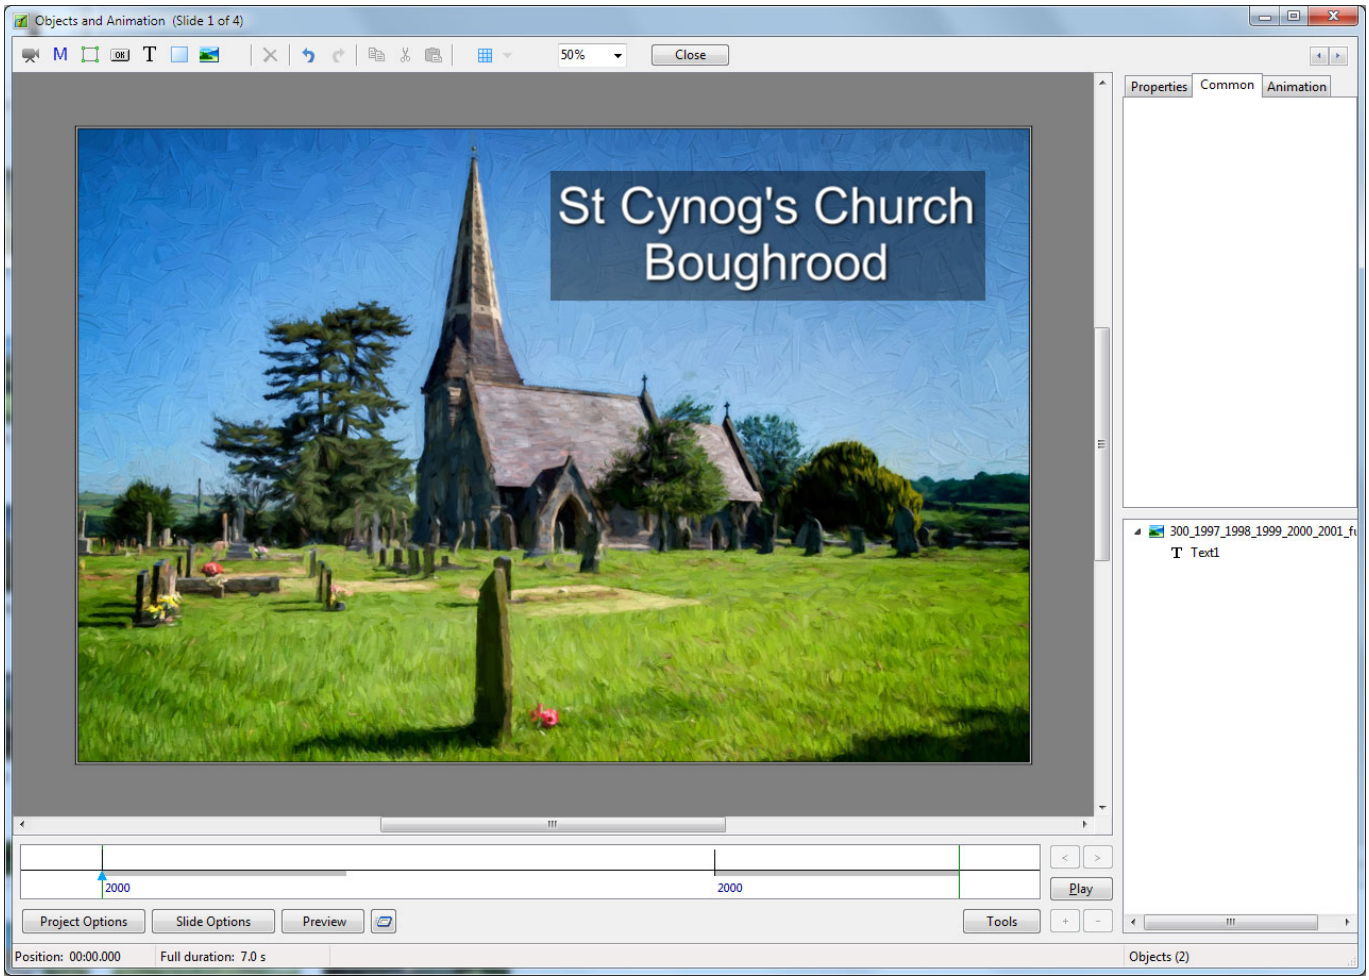
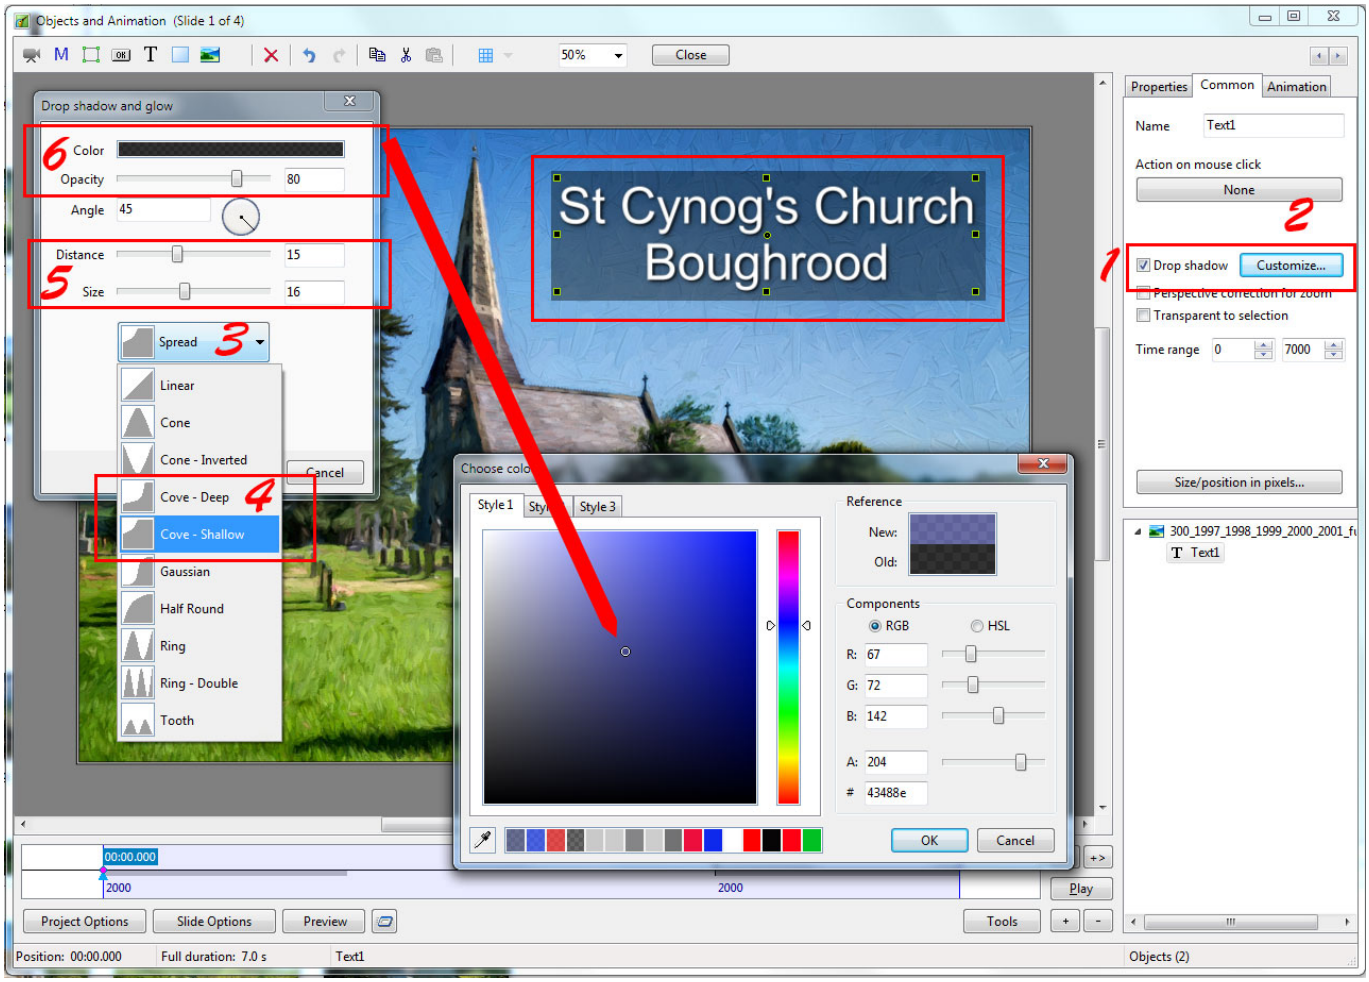
Add Background to Text

A simple way to add a background under a text object using only one object:



- Add a text Object in Objects and Animation (O&A)
- Click on Drop Shadow in the Common Tab of O&A
- Click on Customize in the Common Tab of O&A
- In the Drop Shadow and Glow box click on Spread
- In the dropdown menu click on “Cove - Deep” or “Cove - Shallow”
- Adjust the “Distance and Size”
- Click in the “Color” box and choose a background color
- Adjust the Opacity



This approach can be used for text comments to automatically add background to all text comments on all slides.
